

**RSC Gold**

# Awaken new research possibilities

Inspire your research and spark your curiosity  
with impactful research from the Royal Society  
of Chemistry.

Explore over 35 journals, 180+ years of chemical  
sciences content and the first chapters of more  
than 1,800 eBooks with your RSC Gold access.

**Fundamental questions  
Elemental answers**

Discover a comprehensive collection of the latest academic breakthroughs as part of your institutional subscription to the RSC Gold package.

### High profile, chemistry-led journals

RSC Gold provides you with access to:

Analyst	Food & Function	Nanoscale
Analytical Methods	Green Chemistry	Nanoscale Horizons
Biomaterials Science	Inorganic Chemistry	Natural Product Reports (NPR)
Catalysis Science & Technology	Frontiers	NJC (New Journal of Chemistry)
ChemComm	JAAS (Journal of Analytical Atomic Spectrometry)	Organic & Biomolecular Chemistry
Chem Soc Rev	Journal of Materials Chemistry A	Organic Chemistry Frontiers
CrystEngComm	Journal of Materials Chemistry B	PCCP (Physical Chemistry Chemical Physics)
Dalton Transactions	Journal of Materials Chemistry C	Polymer Chemistry
Energy & Environmental Science	Lab on a Chip	Reaction Chemistry & Engineering
Environmental Science: Nano	Materials Chemistry Frontiers	RSC Medicinal Chemistry
Environmental Science: Processes & Impacts	Materials Horizons	Soft Matter
Environmental Science: Water Research & Technology	Molecular Omics	Sustainable Energy & Fuels
Faraday Discussions	MSDE (Molecular Systems Design & Engineering)	

### Over 180 years of valuable discoveries

The journals archive contains every article published in our journals since the Chemical Society of London was founded in 1841. Track key scientific advances through history to explore how they are shaping our future.

### International perspective

RSC Gold represents authors, editorial boards and content from over 100 countries.

### Exploring eBooks

Read the first chapter of over 1,800 eBooks. Explore innovative content that covers the spectrum of the chemical sciences. Access these new eBooks with ease thanks to our intuitive new book platform.

### Go beyond Gold

The Royal Society of Chemistry is on a mission to help the chemical sciences make the world a better place. That's why they've committed to a 100% open access future within 5 years. Discover articles from their increasing open access journal portfolio .
