

RSC Select

Infinite answers. One place?

Get on-demand access to
groundbreaking research,
in the lab and remotely

Turn over to request article tokens from your library

**Fundamental questions
Elemental answers**

The articles you need, ready to download

Crucial research breakthroughs depend on access to the right resources.

Using the RSC Select tokens available from your information team, you can download specific articles from any Royal Society of Chemistry (RSC) journal, one at a time, whenever you need to.

How will tokens help me?

#1: Flexible access to the research you need One RSC Select token equals one article download. You can pick from the RSC's entire journal archive, as well as the latest cutting-edge work.

#2: Freedom to explore and specialise Stick to your specialism, or put a new perspective on your work by reading relevant work in another field.

#3: Long-lasting credit RSC Select article tokens are valid for two years, so you have plenty of time to spend them on research that is crucial for a particular project.

#4: Dependable quality Royal Society of Chemistry journals feature globally relevant, interdisciplinary research, supported by rigorous review procedures and consistently high standards.

How do I get tokens?

Just ask the information team, we may have already assigned you some. If not, please request them by contacting us in the usual way.

Once assigned, you can use them straight away to download articles from RSC journals. Remember, one token = one article. This applies even if you have downloaded the article before.
