

CHEMISTRY IS SERVED

What is Food Chemistry?

Food chemistry is about those atoms and molecules that we call food, like nutrients that you find on a nutritional label. This field researches what nutrients do in the body and how they contribute to food flavour, colour, and texture.

If you're aged 8-11

what is your favourite food and why?
Your poster should include one part related to food chemistry.

If you're aged 12-15

what is your favourite meal and why?
Is it the colour? Texture? Taste? Nutritious value?
Your poster should include one to two parts related to food chemistry.

DEADLINE

All participants need to submit an A4 poster in .pdf or .jpg format by 30/09/22 to rscfoodgroup@gmail.com

REQUIREMENT

The poster needs to be completed in full by each participant and we encourage creativity! You may fancy either hand or digital drawing, but the work must be original.

The poster must include the name of the entrant and the school name on the front.

PRIZES

4 prizes in total - two for each age group.
£50 and a Chemistry "goodie bag" for each winner and £100 per school
The posters will be assessed on scientific content and best design.

Judging and prizes will be decided by 31/10/22.

The contest organisers reserve the right to publish any submissions on social media platforms such as Twitter, LinkedIn, Instagram and TikTok.
