Diversity & Inclusion

Please ensure this section is completed

Our trustees are aiming to embed diversity and inclusion in all of our activities and networks. Section 8 of our [online network handbook](#) contains more information to support our networks in achieving this and our Diversity team have [online Guides for Networks](#) that include actions and considerations for committees, and guides for inclusive communications and running inclusive events.

Please comment on how your group is showing that it has embraced Diversity and Inclusion within its practices. If you have diversity data from your events or activities, please include this information above.

All of our events are open to both RSC and Non RSC members who have an interest in the subject of particle characterisation. We actively encourage participation from interested parties outside the UK and our most recent meeting included delegates from Austria, Germany, USA, Egypt and Japan. Until most recently we had two female committee members who have both had to leave due to changes in work situations and we are actively looking to invite suitable people onto the committee. We will be contacting all PCIG members on the RSC database asking for people willing to join the committee. Committee meetings are usually held in the middle of the country to minimise the traveling for committee members at a location that is easily accessible for all.
