Celebrating 1000+ Read & Publish institutions

We’re transitioning to a future of sustainable open research with over 1000 Read & Publish institutions worldwide.

Join other dedicated institutions in their transition to open access.

READ & PUBLISH SCHEMES ALLOW RESEARCHERS...

...to read any content published in a Royal Society of Chemistry Journal

...to publish their work gold open access in any of our hybrid journals.

A SEAMLESS SHIFT TOWARDS OPEN ACCESS

Over 1000 institutions have made the shift towards open access publishing with the help of transformative agreements.

A GROWING COMMUNITY

Our transformative agreements can be found in over 1000 institutions and consortia and in 33 countries, including 10 new countries for 2023.

INSTITUTIONS WITH READ AND PUBLISH SCHEMES IN 2022

Published 2,594 OA articles

Made up 78% of OA articles published in Royal Society of Chemistry hybrid journals

Our Read & Publish deals have been transforming publishing output worldwide in these countries...

A sustainable, global transition to open access publishing

### Countries with transformative agreements

- Australia
- Austria
- Belgium
- Canada
- Chile
- China
- Czech Republic
- Estonia
