## Permissions confirmation form

### TO COMPLETE AND RETURN WITH CHAPTER OR BOOK

If you intend to reproduce any material in your submission (figure, diagram, schemes, tables, text etc.) for which you do not own the copyright then it is **your responsibility as the author to obtain written permission** from the original publisher to reproduce that material and **include an acknowledgement** in the caption in the format prescribed by the copyright owner.

Please complete this form and, if necessary, fill in the details on the attached table for each image and return these together with copies of the publisher's "permission granted" correspondence.

**The chapter cannot be passed for production until we receive a completed Permissions Confirmation Form either verifying permissions have been given or stating no permissions are necessary.**

If at any point you are having difficulty obtaining permissions then please contact us.
