CONTACT

Our qualified, in-house and impartial career and professional development advisers are available to deliver engaging, practical and interactive talks.

WHAT WE OFFER

In this guide, you'll find an outline of career topics that the team can speak on, with approximate timings and who they are suitable for. The team can work with you to tailor the session to your needs and audience. Any of these talks can form part of a wider event, or as a standalone event. If you'd like the team to speak on a topic that isn't listed, then please get in contact - they may be able to create a customised session. Our advisers also offer:

- 10-15 minute 1:1 consultations or CV reviews
- the hosting or chairing of careers panels
- expert knowledge and advice as guest speakers on other panels

WHEN TO BOOK

Ideally, the team need at least 3-4 weeks' notice. However, if you're planning an event (or aren't sure what you need) then contact the team as soon as possible.

HOW TO BOOK

To book or ask a question contact careers@rsc.org or visit rsc.org/careers to find out more about the team and their services.

Who's it for?

How to stand out when applying and interviewing for jobs: identifying opportunities and using labour market information

Learn how to create and manage an effective, multi-channel job search strategy, use employment trends information, identify your transferable skills and how to sell yourself to an employer. We'll share our top tips and strategies for creating CVs and cover letters that will help you stand out, manage interview nerves, prepare for face-to-face and remote interviews, and explore how the Royal Society of Chemistry can support you.

Whether you're unemployed, looking for a new opportunity or returning to work, this talk will give you the tools and confidence to support you in your job search.

Learning outcomes

- Identify, find and apply for roles in any sector (academic or industrial) and use labour market information effectively
- Create effective, highly tailored applications that highlight your skills and experience
- Identify your transferable skills and how to sell them to an employer
- Manage nerves and perform well at interview
- How to network and work with recruitment agencies
- Develop your network to support your career

Career planning

Who's it for?

What can you do with a chemistry qualification?

This interactive session will explore a diverse range of career pathways within the chemical sciences. Whether you're looking to be based in or outside of the lab, we'll explore careers for chemistry-using professionals in pharmaceuticals, research, surface coatings, energy, environment, teaching, science communication and much more.

Learning outcomes

- Learn about the resources and support available through the Royal Society of Chemistry to enhance your knowledge and increase your network

DURATION: 15-25 MINS

School students, higher education students and undergraduates

Transitioning out of academia: Generating ideas, creating effective applications and identifying your transferable skills

Ideal for those who are considering their options outside of academic research and want to understand what they have to offer, what their values are and how to successfully transition to a career in industry.

Learning outcomes

- Put yourself at the centre of your career and generate career ideas
- How to approach your job search and different job search strategies
- How to get support using our online, interactive toolkit
- Grow and use your network to support your job search and career development
- Identify and sell your PhD or academic experience to industrial employers

DURATION: 15-30 MINS

PhD students, postdocs (AMRSC & MRSC)

Career management CONTINUED**Who's it for?****Returning to chemistry after a break and how to overcome barriers you may face**

Whether you're preparing to return to work after unemployment, a career break, parental leave or time away from the chemical sciences, this talk will explore some of the barriers or challenges you may face and how to navigate them. This could include refreshing your technical or transferable skills, conquering confidence gremlins, managing caring responsibilities, approaching a changed workplace, or building new relationships. We'll share our top tips and advice and highlight relevant support available to you through your RSC membership.

Learning outcomes

- How your membership can support your return to work
- How to build confidence by refreshing/gaining new skills
- Communicating with your new/current team and manager
- Adapting to remote working
- How our online, interactive toolkit can support you

DURATION: 15-30 MINS

The ingredients of good networking: how to network effectively online and face-to-face

Not everybody likes to network but it's vital in developing and managing our careers, regardless of career stage or field. This session outlines the benefits of networking, strategies to develop your network – in-person and remotely – and build your confidence.

Learning outcomes

- How to build or grow your network
- Build confidence during online networking sessions, or networking in other situations
- How to prepare for networking sessions
- How to use your RSC membership to raise your profile and create opportunities to network

This talk can be followed by a networking session **DURATION: 15-20 MINS**

Continuing professional development (CPD)

Who's it for?

Continuing professional development and how the RSC can support your career

Explore the importance and benefits of professional awards and continuing professional development. We'll define what CPD is, identify your CPD goals and explore tools and resources to help you reach them. We'll also look at the value behind working towards professional awards such as Chartered Chemist (CChem), Chartered Scientist (CSci), Chartered Manager (CMgr), Chartered Environmentalist (CEnv), Registered Scientist (RSci) or Registered Science Technician (RSciTech).

This talk can be tailored for your audience. **DURATION: 15-30 MINS**

How to be an effective mentor

Would you like to help someone develop their potential? Maybe improve your communication skills or gain a fresh perspective? Mentoring is a rewarding and mutually beneficial partnership. We'll help you develop the skills to be an effective mentor in your workplace, or you could join our established member-to-member mentoring scheme¹ run by the Career and Professional Development team. Learn about the mentoring process, tools and techniques used, and the support available to mentors.

DURATION: 1-2 HOURS (including breaks)

All members

¹Our member-to-member mentoring scheme is open to Associate (AMRSC), Members (MRSC) and Fellows (FRSC) but this session is available to all members. Find out more about mentoring: rsc.org/careers/cpd/mentoring
