

RSC Select

On-demand access to groundbreaking research

Why choose RSC Select?

- RSC Select gives you on-demand access to groundbreaking research without being tied to a subscription
- One token equals one article download from our collection of cutting-edge research
- Alternatively, use your token to download one eBook chapter from our wide range of titles
- Download the exact articles your researchers need to find the next scientific advance
- Track usage with monthly download reports
- Prices are tailored to your unique circumstances
- Replenish your tokens at any time

How does it work?

Purchase tokens and let your users select the content they need from across our entire journals portfolio. Each article download uses one token.

How long do I have to use my credits?

Tokens are valid for 24-36 months from when they are activated. You can buy more tokens at any time.

Can you customise access?

Yes, you can customise your programme. For example, you can set up a programme with IP addresses and usernames or passwords. Alternatively, we can align your token bundle to a select group of journals and close off token access to the others.

Further customisation options are available.
