Water Research & Technology

- Water Science Forum is an Interest Group of the Royal Society of Chemistry
- World wide membership
- Members employed by:
 - Regulators
 - Utilities
 - Researchers
 - Water Sector companies:
(consultants, contractors, suppliers)

Chemical Science Roadmap

Bursaries and Awards

Alan Tetlow Memorial Bursary

- To help encourage early career chemists (during the first 10 years of their career) and those returning to work after a career break to develop their professional career. Awards of up to £2,000 per year are available
- Members can apply for financial assistance to advance their career in relation to the following activities, to:
 - Attend conferences for the purpose of presenting a poster or paper
 - Attend research meetings (including young researcher meetings)
 - Visit UK or international laboratories
 - Complete training courses; and
 - Assist in research relating to water science projects in general
- Please note that activities are not restricted to these activities only. However, the activity needs to contain a high proportion of water related chemical science which contributes to water sustainability (environment, economic, social) and have an identifiable practical application

Developing Water Science Bursary

- The Water Science Bursary is awarded to researchers engaged in projects that involve application of chemical sciences in the management of the water cycle, and the impact these activities have on the environment.
- The funds are available to assist MSc students or students on other career development routes including those who have no formal higher qualifications (degree, HND).
- This award may also be particularly relevant to members aiming to achieve Registered Science Technician (RSciTech) or Registered Scientist (RSci) status.
- In addition early stage chemists (during the first 10 years of their career) and those returning to work after a career break to develop their career are particularly encouraged to apply.

KTN

the
Knowledge Transfer
Network

Introducing The Knowledge Transfer Network

What we do

- KTN is the UK's innovation network. It brings together businesses, entrepreneurs, academics and funders to develop new products, processes and services
- We help business to grow the economy and improve people's lives by capturing maximum value from innovative ideas, scientific research and creativity

The Knowledge Transfer Network

How can we help

To deliver our objectives we provide a number of services to our members:

- **Information & News** – in one place, up-to-date
- **Events and activities** – for knowledge transfer & collaboration
- **Partnering** - Access to strong network of industry & research partners – connect with partners for projects, join consortia
- **Funding** – Help with finding & obtaining funding

16 Industry communities

Core thematic networks covering key application areas and underpinning technologies

20 Cross-sector groups

Interdisciplinary programmes building communities around priority challenges

60,000+ Members

An engaged online community of innovators served by a single platform

15,000+ Delegates per year

Hundreds of events bringing people together 'to make magic happen'

Water and the KTN

Who we work with – representative bodies

Want to join us!

Then find out more at:

<http://www.rsc.org/Membership/Networking/InterestGroups/WaterScience/>

http://www.rsc.org/images/WaterAppForm_tcm18-221447.pdf

Membership is open to professional, associate and affiliate members of RSC

The cost is £10 per year although can be taken at no additional cost as one of the three free interest group memberships included in the annual RSC subscription fee

Thank You we hope this event was both interesting and informative
