

# Natural Product Updates

Online  
database

New developments in natural product chemistry

RSC Publishing

[rsc.li/npu-database](https://rsc.li/npu-database)  
Registered charity number 207890

**NEW**  
NPU now structure-  
searchable through  
ChemSpider!

## About the Database

*Natural Product Updates* is an online database that provides quick access to recent significant advances in natural product chemistry, via graphical abstracts from over 80 primary journals. It offers:

- ✓ Visual graphical abstracts of current research
- ✓ Records containing structure diagrams, trivial and taxonomic names, molecular formulae, physical and biological properties
- ✓ Fully searchable online database of almost 65,000 records
- ✓ 150 records added per month, sourced from more than 80 key journals
- ✓ Searchable via compound source, e.g. fungi or corals

### ***Natural Product Updates* covers:**

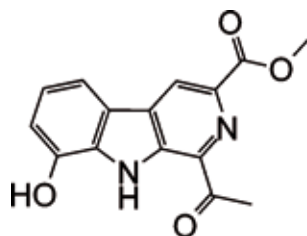

- new natural products
- known compounds from new sources
- isolation studies
- structure determinations
- new properties and activities
- biosynthesis and biological activities

**Readership:** Chemists, biochemists, pharmacists, medicinal chemists, botanists and other scientists working in the natural products area.

*Natural Product Updates* is part of the RSC Gold collection. To find out more about current pricing and subscription packages, visit [www.rsc.org/catalogue](http://www.rsc.org/catalogue) or email [sales@rsc.org](mailto:sales@rsc.org)

### **Sample record:** 65122

Five new -carboline-type alkaloids  
from *Stellaria dichotoma* var. *lanceolata*  
L.-H. Cao; W. Zhang; J.-G. Luo\*; L.-Y. Kong\*  
*Helv. Chim. Acta.*, 2012, 95(6), 1018-1025

**dichotomine F**  
**yellow powder (7.8 mg)**  
**C<sub>15</sub>H<sub>12</sub>N<sub>2</sub>O<sub>4</sub>**
