

Marie Curie and Aspects of the History of Radiochemistry

Friday 18 March 2011

Chemistry Centre, Burlington House, London

Programme

1000 **Coffee and registration**

1045 **Opening of Conference** (Richard Pike, Chief Executive, RSC)

1100 Keynote Lecture: *Marie Curie, her Life and Work.*

Dr. Serge Plattard, Science and Technology Counsellor, French Embassy

1200 *Early use of radionuclides in medicine.*

Prof. Alan Dronsfield, University of Derby

1230 - 1400 **LUNCH**

1400 *Rutherford, Radioactivity and the Atom.*

Dr. Jeff Hughes, Manchester University

1435 *Rutherford to Nuclear Power.*

Dr. Peter Iredale, ex-Director of Harwell

1520 - 1550 **TEA**

1550 *Radiochemistry at Harwell from 1946 and its contribution to nuclear power.*

Dr. John Wilkins, Former Head of Site, Harwell

1625 *Curium and the trans-actinides.*

Dr. Clint Sharrad, CRR, Manchester University

1700 -1720 Summary and close of meeting.
