The Royal Society of Chemistry

The RSC is the largest organisation in Europe for advancing the chemical sciences. Supported by a worldwide network of members and an international publishing business, our activities span education, conferences, science policy and the promotion of chemistry to the public.

www.rsc.org

Water For Life

The Water Science Forum has adopted WaterAid as its preferred charity. WaterAid is a charity that works with some of the poorest communities in Africa and Asia providing a better quality of life through water, sanitation and hygiene education projects.

Water Contamination Emergencies

A series of conference proceedings that provide readers with an up-to-date view of current strategies and the collaboration essential for an appropriate and timely response to water contamination emergencies.

<http://www.rsc.org/Membership/Networking/InterestGroups/WaterScience/index.asp>

Membership of WSF is open to professional, associate and affiliate members of the RSC.

(Please note that affiliate membership is available to anyone with a general interest in chemical sciences).

current WSF awards

Alan Tetlow Memorial Bursary

Awarded annually to post-graduate students or professional water scientists to support career development. The bursary can be used to attend meetings or to assist in research relating to water science projects.

Water Science Bursary

Awarded to researchers engaged in projects that involve application of chemical sciences in the management of the water cycle, and the impact these activities have on the environment

Sustainable Water Award

This biannual award will recognise individuals who have made significant contributions to the chemical sciences of sustainable water.

Water Science Forum

a forum to promote research, education and training in all aspects of water related Sciences

Join today

ROYAL SOCIETY OF CHEMISTRY | WATER SCIENCE FORUM

why WSF works for its members?

Membership of the Royal Society of Chemistry (RSC) provides access to a wide range of benefits and services which assist in career development plus offering professional and everyday financial savings.

The Water Science Forum (WSF) is one of the most active of the RSC's special interest groups. It focuses on the application of the chemical sciences to management of the water cycle and the impact of these activities on the natural environment. The WSF supports methods which promote efficient use of water resources including techniques for recycling/reuse and resource recovery. It has a diverse membership drawn from the water industry, consultancies, academia and regulatory bodies among others.

The aim of the WSF is to promote the professional and scientific interests of members and to advise on and influence, in the public interest, the application of chemistry in water-related industries. The WSF also aims to promote research, education and specialised training in all aspects of water-related chemistry, including relevant chartered status for members.

why you should join?

- Keeps members up-to-date with current developments within the water sector and promotes Continuous Professional Development
- Provides a forum for the debate of professional and scientific matters on water related issues within the RSC and other relevant organisations
- Provides specialist technical advice on water related issues to the RSC and to assist the RSC in presenting a corporate view to national and local government on matters of interest to WSF members.

what is included?

- Regular topical meetings/conferences
- A biannual newsletter
- Preferential rates for meetings organised or co-organised by WSF
- Bursaries for early stage career members or members returning after a career break
- WSF webpage on the RSC website and an active forum on MyRSC.

Advance your water career

Water Science Forum

I wish to join the Water Science Forum

I am a member of the Royal Society of Chemistry

Name:

Address:

Postcode:

Telephone/Fax:

Email:

Please complete and return to:

Hon. Secretary
Water Science Forum
c/o The Royal Society of Chemistry
Burlington House, Piccadilly
London W1V 0BN

Alternatively please email your application to
Networks@rsc.org

***Applicant must already be a Royal Society of Chemistry member or join at the most appropriate level. Members fee payable.**
