

Figure captions

Fig. S1. Separation of the MP peaks by the self-correcting algorithm at the presence of (A) 5-fold p-nitroaniline and (B) 10-fold p-nitrophenol. P_{MP} , P_1 and P_2 are the original peaks obtained by LSV. P_{MP}' , P_1' and P_2' are the peaks acquired using the algorithm.

Fig. S1.
