

Supplementary Material (ESI) for New Journal of Chemistry

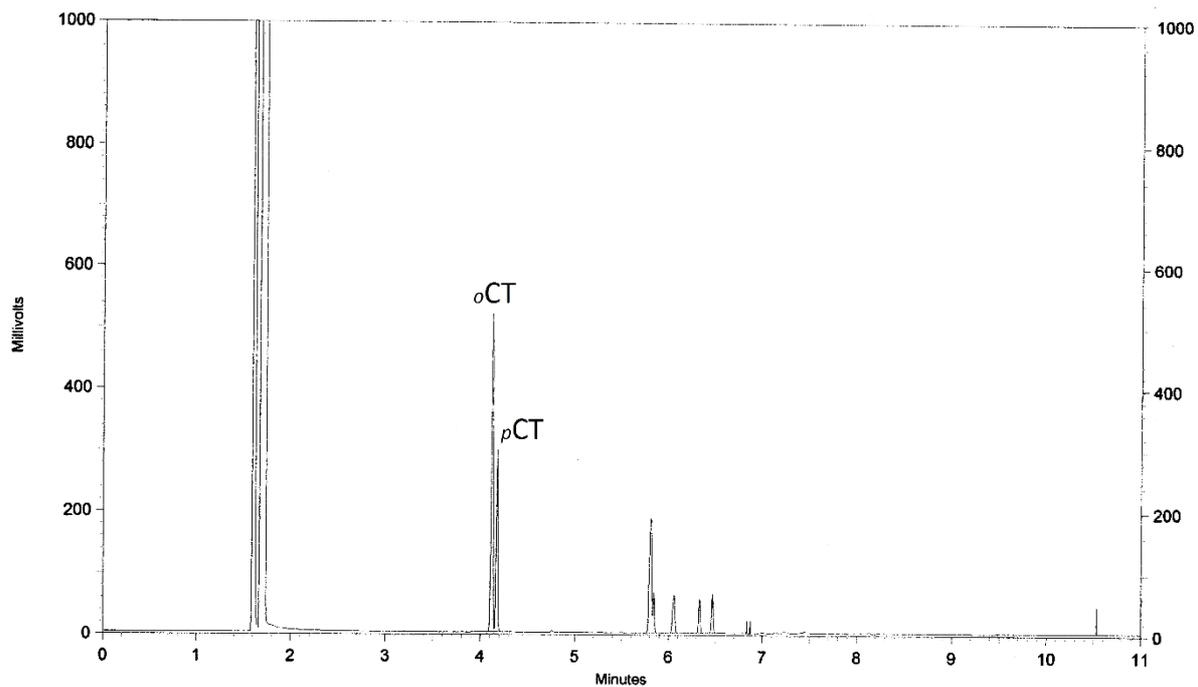

Facile, Efficient, and Environmentally Friendly α - and Aromatic Regioselective Chlorination of Toluene using KHSO_5 and KCl under Catalyst-free Conditions

Yasemin Çimen,* Seçkin Akyüz and Hayrettin Türk

GC chromatograms

The GLC chromatogram of the reaction mixture of the chlorination of toluene using KHSO_5 and KCl in the CH_2Cl_2 - H_2O solvent mixture.

The GLC chromatogram of the reaction mixture of the chlorination of toluene using KHSO_5 and KCl in the $\text{CH}_3\text{OH}-\text{H}_2\text{O}$ solvent mixture.
