Table of Content

Figure S1. Temperature-programmed desorption (TPD) profile of CO₂ desorbed from CaGEO-4.

Figure S2. 400 MHz ¹H NMR spectra of the product extracted by hexanes after the transesterification with CaGEO-4 (a), and a biodiesel standard for comparison (b).

Figure S1. Temperature-programmed desorption (TPD) profile of CO₂ desorbed from CaGEO-4.

Figure S2. 400 MHz ^1H NMR spectra of the product extracted by hexanes after the transesterification with CaGEO-4 (a), and a biodiesel standard for comparison (b).
