Figure S1: XRD patterns for the pure MnFe_2O_4 along with JCPDS data.

Figure S2: TGA/DSC plots for the MnFe₂O₄/rGO composite in air atmosphere.

Figure S3: Cyclic voltammety plots for the pure MnFe_2O_4 Vs. Li/Li^+ .

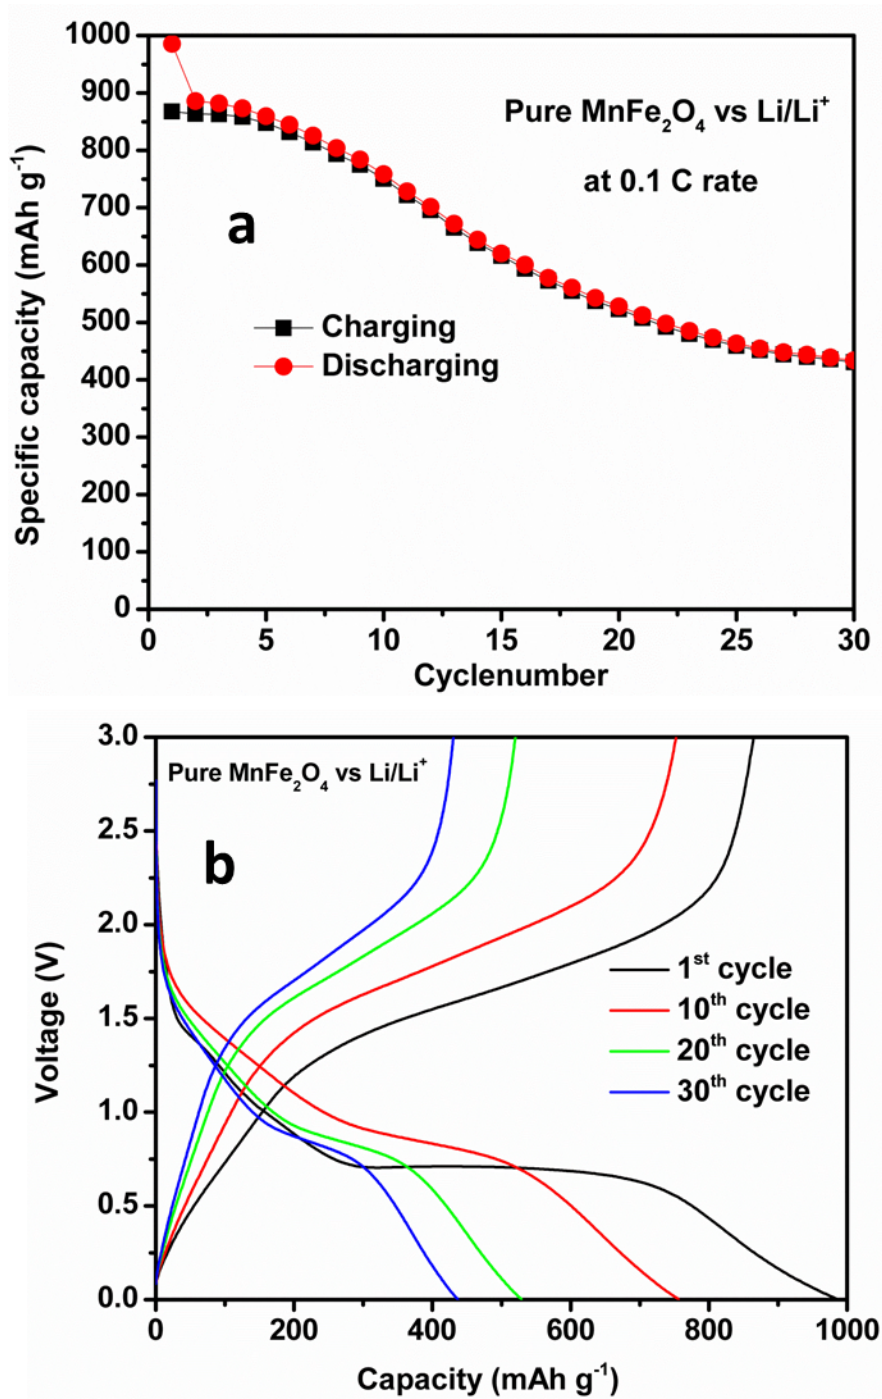

Figure S4: a) cycleability and b) charge-discharge curves for the pure MnFe_2O_4 vs Li/Li^+

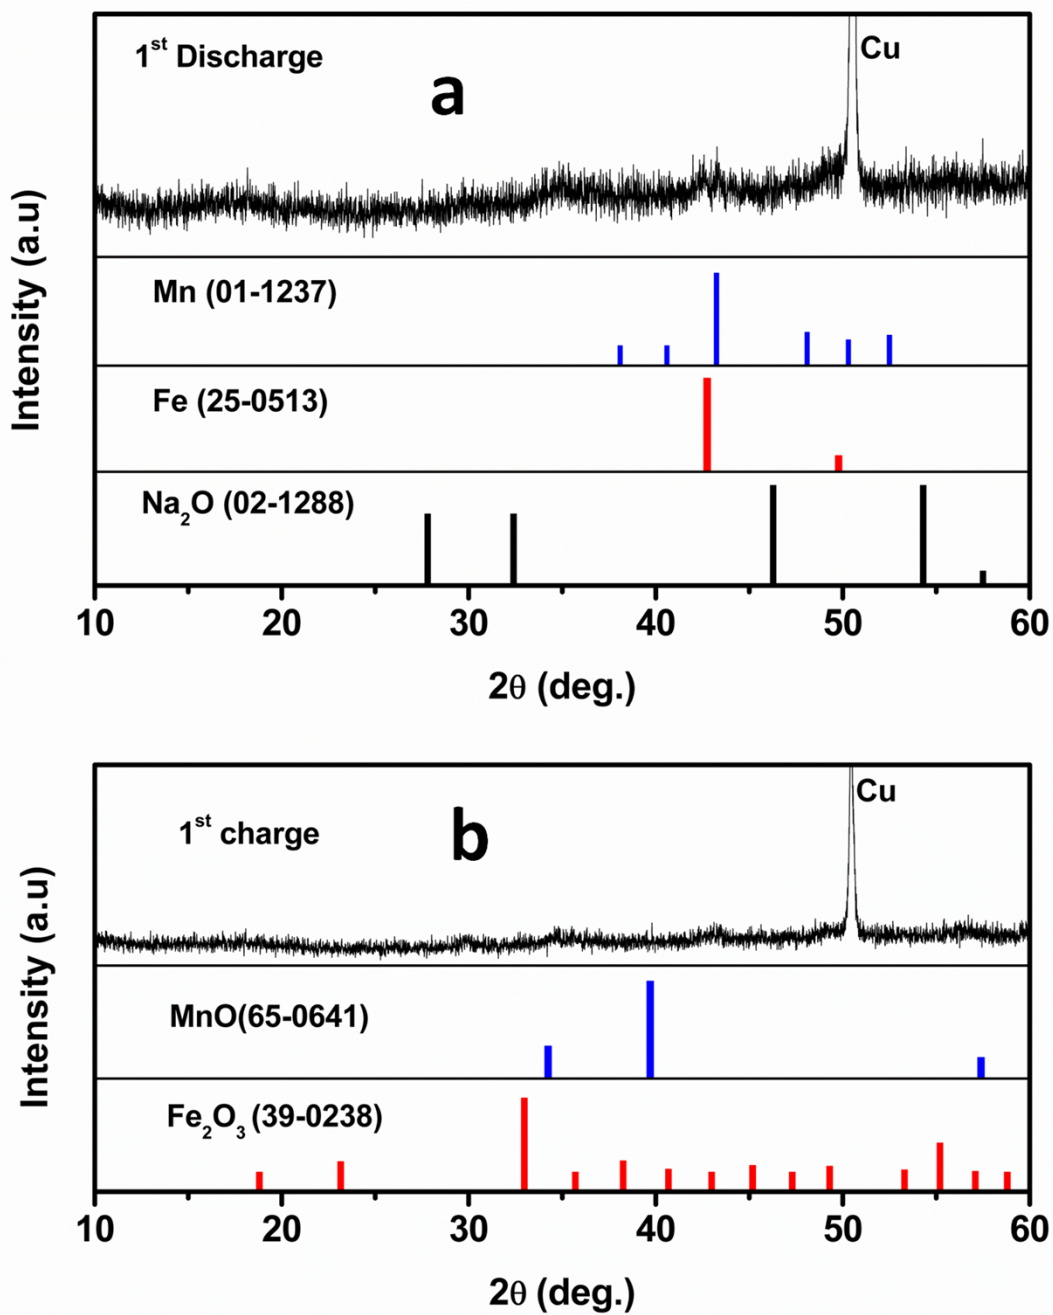

Figure S5: XRD patterns for the MnFe₂O₄/rGO electrodes versus Na/Na⁺ at a) 1st discharge and b) 1st charge states along with existence compound JCPDS data.
