

Fig. S1 Nitrogen adsorption-desorption isotherm of magnetic regenerated cellulose microspheres, a, b, c, d were MRCM-1, MRCM-2, MRCM-3 and MRCM-4, respectively.

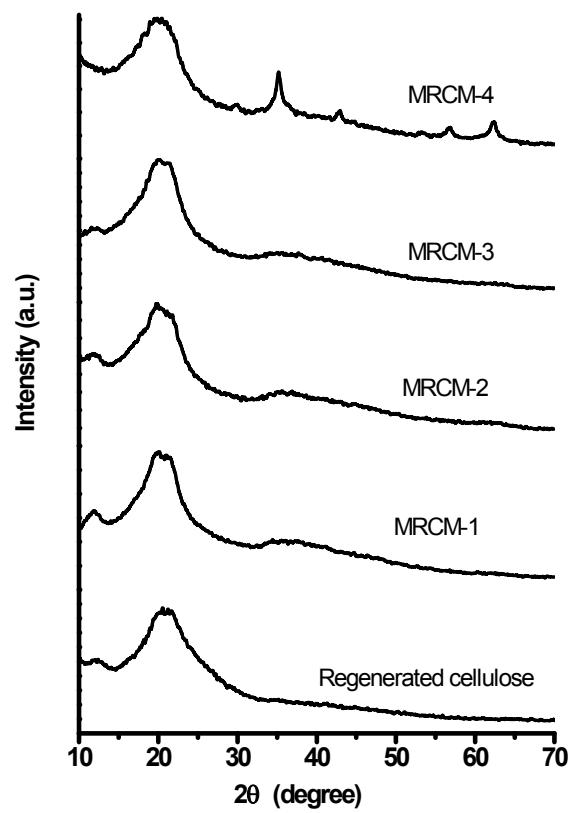

Fig. S2 XRD of cellulose and magnetic cellulose composites.

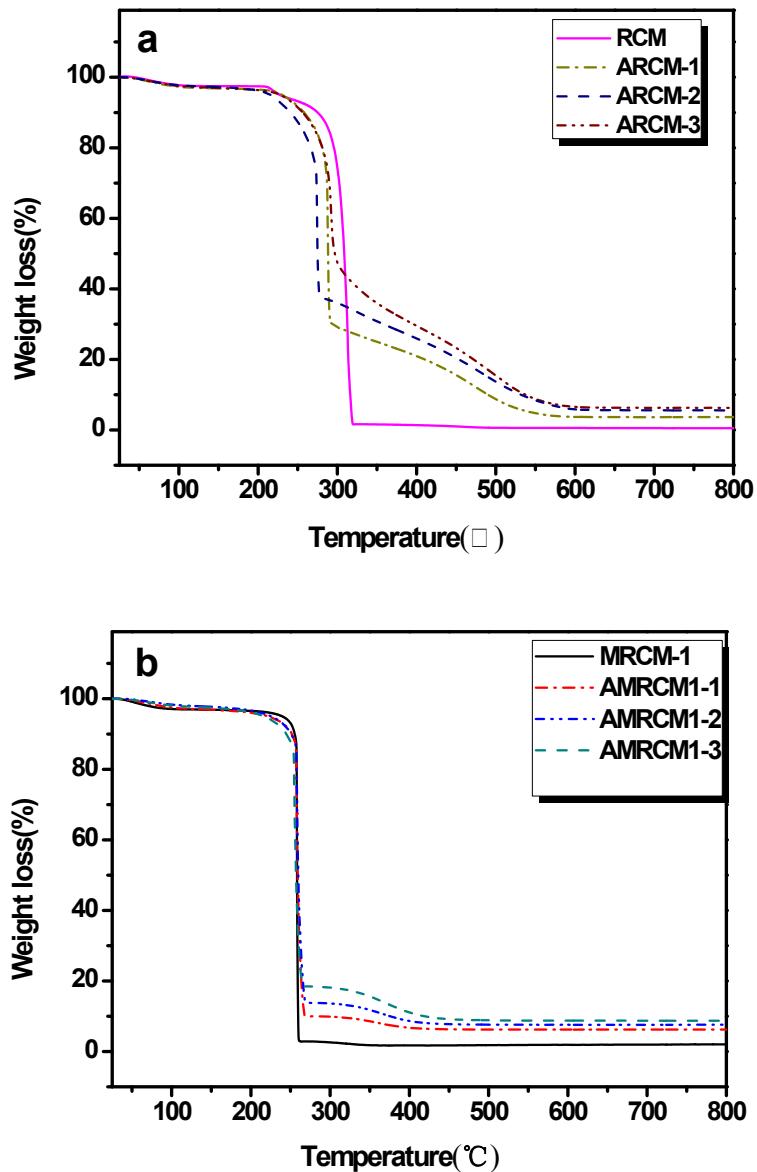

Fig. S3 Thermal analysis of the RCM and the RCMs treated with AEAPS (a), the MRCM-1 and the MRCM-1 treated with AEAPS (b).

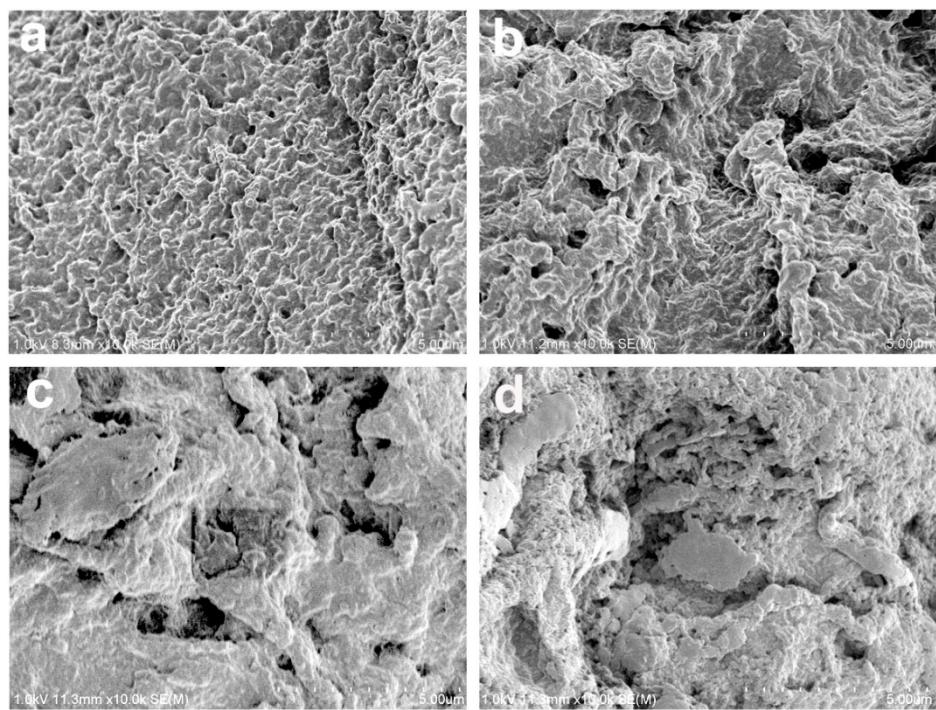

Fig. S4 SEM images of regenerated cellulose microspheres and magnetic regenerated cellulose microspheres treated with different concentration of AEAPS: (a) ARCM-2, (b) ARCM-3, (c) AMRCM1-2 and (d) AMRCM1-3.
