Supporting Information

Table of contents:

Figure S1. Typical negative HCBU spectral mode of the GSR (15x10µm). Notice the observations of the Si⁻, Pb⁻, SbC⁻, and SbO_n⁻ series. Bismuth is observed due to backscattering of the primary ion beam.

Figure S1. Typical negative HCBU spectral mode of the GSR (15x10 μ m). Notice the observations of the Si⁻, Pb⁻, PbOH⁻, SbC⁻, and SbO_n⁻ series. Bismuth is observed due to backscattering of the primary ion beam.
