

**Supplemental table 1** The association between the bone turnover markers and BMD in pre and postmenopausal women (Spss 16.0).

Metabolites	Spinal BMD		Hip BMD	
	Pearson correlation coefficients	P Value	Pearson correlation coefficients	P Value
ALP	<b>-0.303</b>	0.005	<b>-0.248</b>	0.022
CTX	<b>-0.289</b>	0.007	<b>-0.223</b>	0.041
PINP	<b>-0.121</b>	0.27	<b>-0.07</b>	0.087
Tracp5b	<b>-0.295</b>	0.006	<b>-0.187</b>	0.087

**Supplemental table 2** Endogenous metabolites detected by GC/MS.

Lipids	EPA, DHA, hexadecenoic acid, nonadecanoic acid, hexadecanoic acid, heptadecanoic acid, lioleic acid, oleic acid, octadecanoic acid, arachidonic acid, 11,14-Eicosadienoic acid, Eicosanoic acid, dodecanoic acid, 1-Monooleoylglycerol, Cholesterol
Amino acids	L- valine, Acetyllysine, L-threonine, Tryptophan, L-Isoleucine, L-proline, Glycine, Serine, L-alanine, Homoserine, 3-hydroxy-L-proline, L-phenylalanine, L-asparagine, L-cystine, 3-cyano-alanine, L-tyrosine, DL-ornithine, L-lysine
Energy metabolism related metabolites	Propanoic Acid, 2-hydroxybutyric acid, pyruvic acid, carbamic acid, succinic acid, fumaric acid, Acetic acid, L-Lactic acid, phosphoric acid, oxalic acid, 3-hydroxybutyric acid, 2-ketobutyric acid, Butanoic acid, malonic acid, Butylamine, Aminobutyric acid, hydroxypropanedioic acid, 1,4-benzenedicarboxylic acid, Aminomalonic acid, Phenylethanolamine, benzoic acid, Monoethanolamine, 1,2,3-Propanetricarboxylic acid, tartaric acid, Glutamic acid, Gluconic acid, ascorbic acid, 2-Oxpentanedioic acid, 1H-Indole-3-acetic acid, Glycerol, Pinitol, Sorbitol, 1,5-Anhydrosorbitol, Threitol, Maltitol, Myo-Inositol, erythritol, ribitol, xylitol, indolelactic-acid, Fructose, Mannose, Glucose, Allose, Mannobiose, Lactose, turanose, Uric acid, Sucrose, Lyxose, melezitose, Uridine, Ribose, Inosine, Pseudouridine, Pyridine, uracil, Creatinine, Urea, $\alpha$ -Tocopherol, arabinofuranose, dimethyl-3-pentanol,

**Supplemental table 3** The area under ROC curve adjusted by the lipid profile in premenopausal women and postmenopausal women.

Metabolites	Group I vs Group II			Group I vs Group III			Group I vs Group IV			Group II vs Group III			Group II vs Group IV		
	Area	Std. Error <sup>a</sup>	Sig. <sup>b</sup>	Area	Std. Error <sup>a</sup>	Sig. <sup>b</sup>	Area	Std. Error <sup>a</sup>	Sig. <sup>b</sup>	Area	Std. Error <sup>a</sup>	Sig. <sup>b</sup>	Area	Std. Error <sup>a</sup>	Sig. <sup>b</sup>
