### EDX spectra of NaYF<sub>4</sub> nanocrystals for Gd15 sample.

We have measured the EDX pattern of  $NaYF_4$  nanocrystals to reveal the existence of doped elemental Gd. Fig. S1 shows the typical EDX spectra of sample Gd15 and the existence of Gd in the  $NaYF_4$  nanocrystals can be clearly indicted.

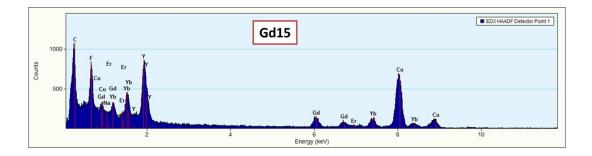

Fig. S1 the typical EDX spectra of NaYF<sub>4</sub> nanocrystals for Gd15 sample.

#### FE-SEM images of NaYF<sub>4</sub> nanocrystals on the Au nanoarrays substrate

Cross-sectional and top view FE-SEM images of  $NaYF_4$  nanocrystals on the Au nanoarrays substrate are shown in Fig. S2. It is shown that the thickness of  $NaYF_4$  nanocrystals film is about 500 nm and the  $NaYF_4$  nanocrystals film on the Au sphere structure is smooth with a compact structure.

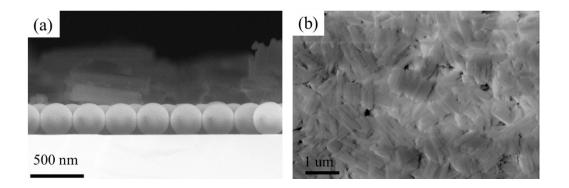

Fig. S2 Cross-sectional and top-view FE-SEM images of NaYF<sub>4</sub>:Yb,Er nanocrystals on Au nanoarrays, respectively.
