

## SUPPORTING INFORMATION

### Bio Ionic Liquids and Water Mixtures: a Structural Study

Lorenzo Gontrani<sup>a\*</sup>, Eleonora Scarpellini<sup>a</sup>, Ruggero Caminiti<sup>a</sup> and Marco Campetella<sup>a\*</sup>

*a) Dipartimento di Chimica, Sapienza Università di Roma*

**Fig. 1 :** Left side: theoretical and measured structure function. Right side: theoretical and measured radial distribution function. Moving from top to bottom the water concentration increases.
