

Table 3. Factorial design for the plant organ, light availability, plant density and plant pattern factors and the caffeine, chlorogenic acids, reducing sugars and lipid concentrations ($\mu\text{g mL}^{-1}$) and ash percentages..

Factors					+	
1. Plant pattern		Square			Rectangle	
2. Plant density		6000			10000	
3. Light availability		sunny			shadowy	
4. Plant organ		bean			leaf	
Factorial Experiment	Factor level	Caffeine	Chlorogenic acids	Reducing sugars	Ashes	Lipids
	1 2 3 4
