

Supplementary information

Electrospun nanofibrils embedded hydrogel composites for cell cultivation in biomimetic environment

Sol Lee, Hye Sung Kim and Hyunk Sang Yoo

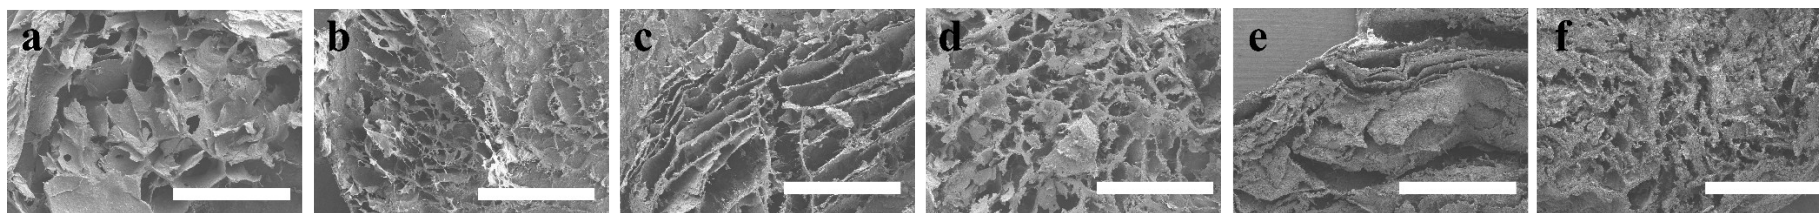

Figure S1. Scanning electron microscopic image of NF/Hydrogels. (a) is Hydrogel without NF and (b) ~ (f) indicate 1 ~ 20% NF/Hydrogel.

Scale bar = 1mm.

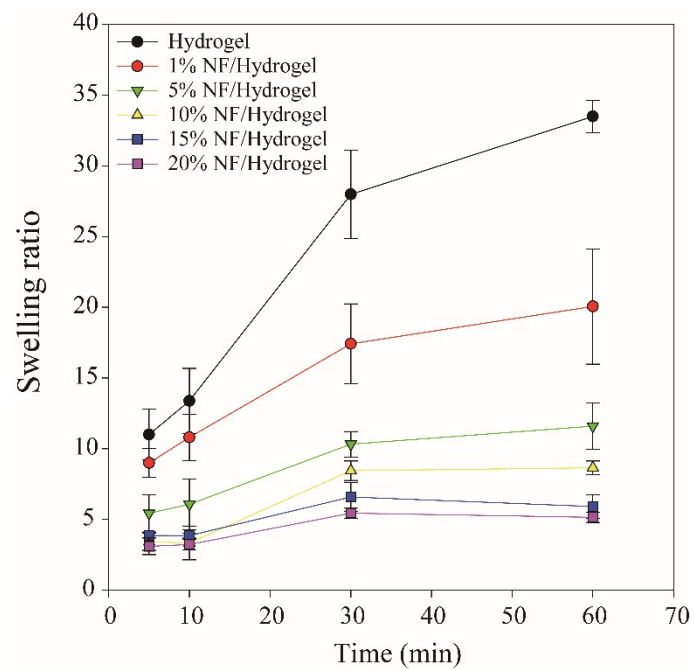

Figure S2. Swelling ratios of Hydrogel without NF and NF/Hydrogel.
