

Self-forming nanocomposite concept for ZnO-based thermoelectrics

Kiryl V. Zakharchuk, Marc Widenmeyer, Denis O. Alikin, Wenjie Xie, Sascha Populoh, Sergey M.

Mikhalev, Alexander Tselev, Jorge R. Frade, Anke Weidenkaff,

Andrei V. Kovalevsky*

Electronic Supplementary Information (ESI)

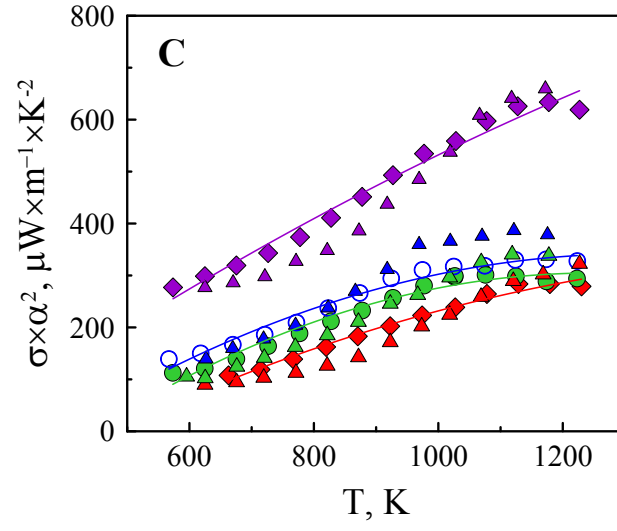

Fig. S1. Reproducibility measurements for electrical conductivity (A), Seebeck coefficient (B) and corresponding results for the power factor (C). Closed triangles of the corresponding colour show the second reproducibility measurement for each composition.
