

Pre-project Survey

Start of Block: Introductory information

Q1.1 Dear Stanford Beach Project Volunteer, We are so grateful to you for helping make this project possible! As part of our study of coastal water quality, we are also interested in learning more about why citizen scientists like you participate in projects and how we can make the experience more rewarding for you. Your answers to this survey will help us do a better job working together with the community on critical issues like water quality.

Completing this survey should take about 10 minutes. Please consider this a crucial element of your participation in this project. Thank you very much for your cooperation.

Q1.2
