

Supplement Fig 1.

Supplement Fig 1. Schematic protocol for ovalbumin(OVA) sensitization and siRNA treatment. The BALB/c mice were sensitized with OVA and treated with Chil3 and Chil4 siRNA/HMG/OR complex. IP, intraperitoneal; IN, intranasal; IT, intratracheal treated.

Supplement fig 2.

Supplement Fig 2. TLR4 expression in THP-1 cells after LPS treatment.

A, Semi-quantitative RT-PCR of TLR4 in THP-1 cells. B, Western blot analysis of TLR4. GAPDH was used as an internal control. GAPDH, glyceraldehyde-3-phosphate dehydrogenase;
