Nt = *Nicotianatabacum*; F = Forward; R = Reverse

Supplementary

Fig. 1 *In vitro* screening of SNP on growth of *Xanthomonas oryzae*pv. *oryzae*. Figure shows the effect of NO donor (SNP) on *Xoo* growth. Spore suspension of *Xoo* (0.05 OD600) was inoculated on peptone sugar agar(PSA) culture media containing different concentrations of SNP.
