

Electronic Supplementary Material

Porous $g\text{-C}_3\text{N}_4$ covered MOF-derived nanocarbon materials for high-performance supercapacitors

Additional Fig.s and Results

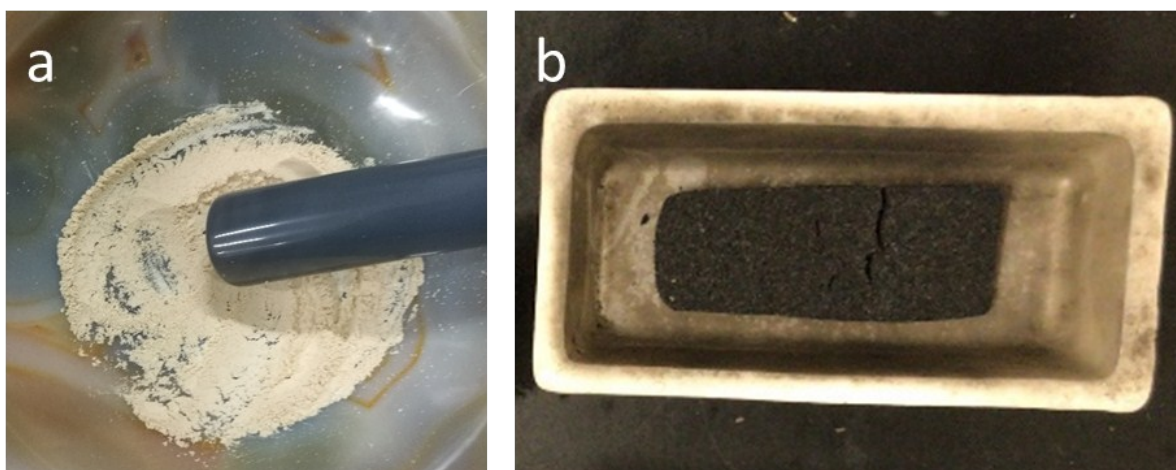

Fig. S1 Optical images of $g\text{-C}_3\text{N}_4$ and PMGCN nanocomposite.

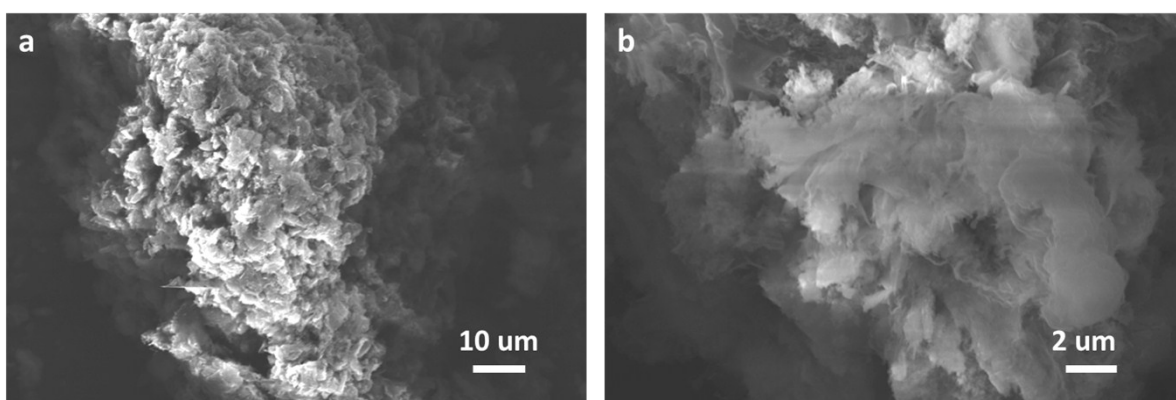

Fig. S2 SEM images of $g\text{-C}_3\text{N}_4$ at different magnifications.

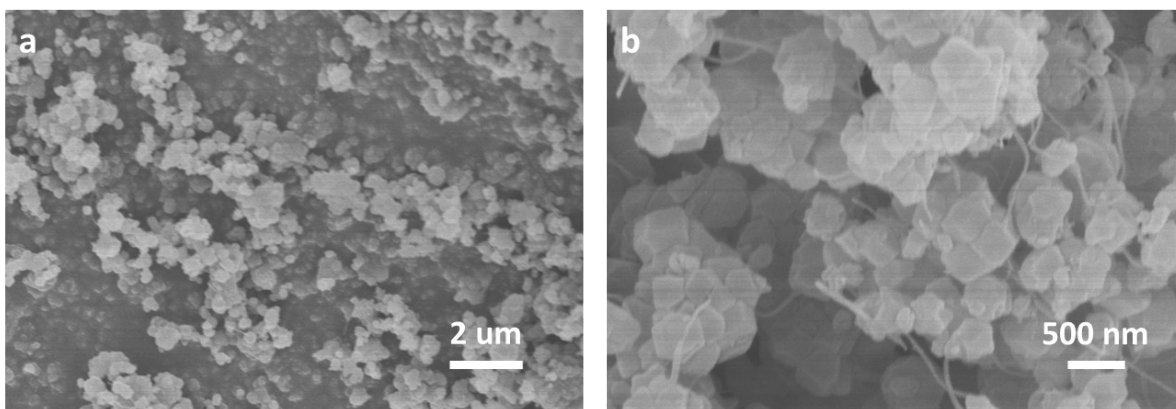

Fig. S3 SEM images of ZIF-8 at different magnifications.

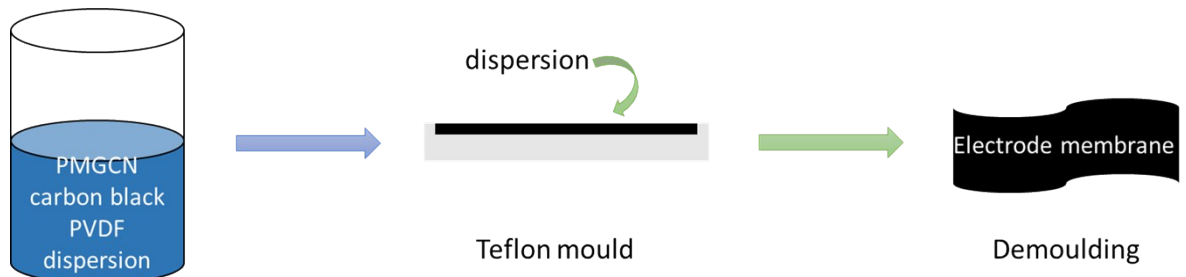

Fig. S4 Fabrication process of electrode membrane.
