

Structural Transformations From 1D Chain to Two 3D Supramolecular Isomers Via Crystal Disassembly and Reassembly

Yue-Ling Bai, Jun Tao,* Rong-Bin Huang, and Lan-Sun Zheng

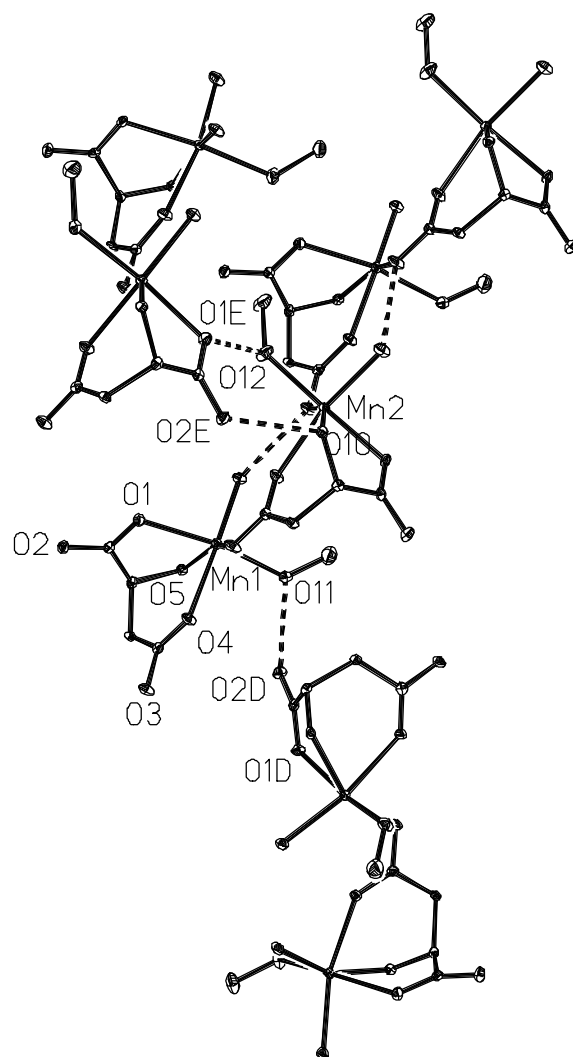

Figure S1. Three-dimensional hydrogen-bonded network of **1** viewed down to *a* axis (top) and of **2a** (middle) and **2b** (bottom) viewed down to *c* axis.

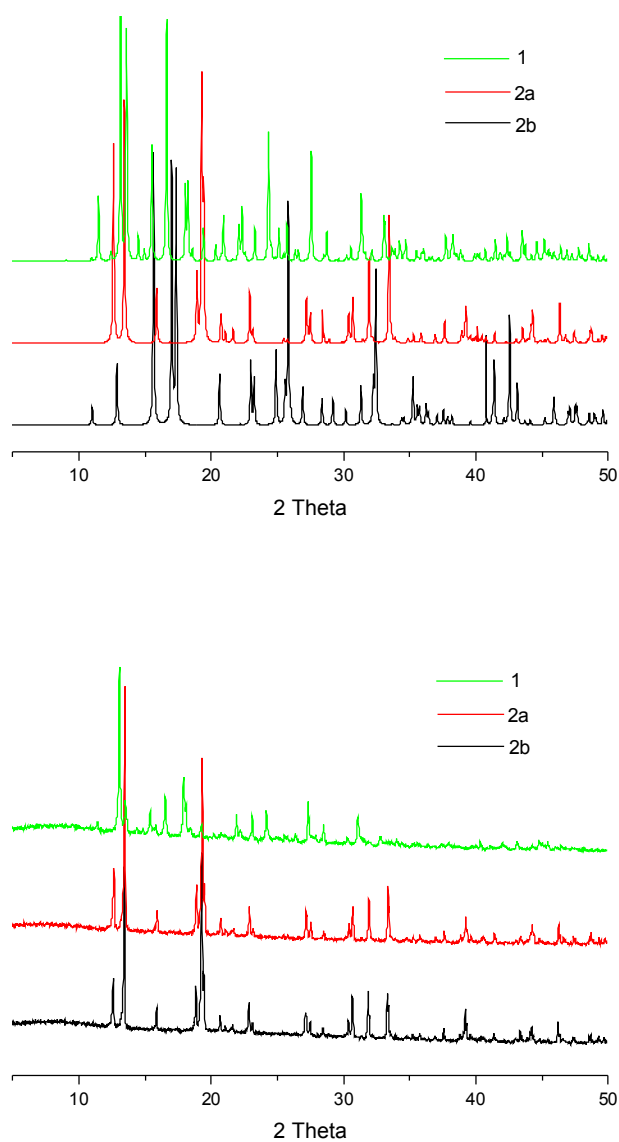

Figure S2. The patterns of XRPD of **1**, **2a** and **2b**, simulated patterns (top) and diffractive patterns (bottom).

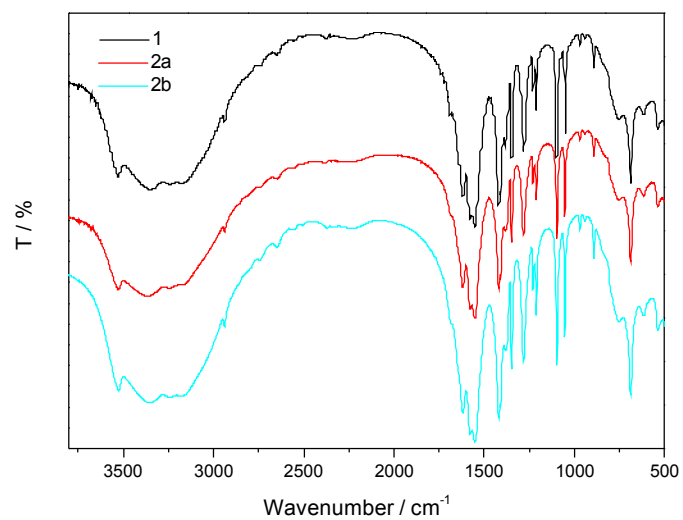

Figure S3. Infrared spectra of **1**, **2a** and **2b**.
