

SUPPLEMENTARY DATA

Hydrogen bonded dimers vs. one-dimensional chains in 2-thiooxoimidazolidin-4-one (thiohydantoin) drug derivatives

Sushil Jha, Jon D. Silversides, Ross W. Boyle* and Stephen J. Archibald*

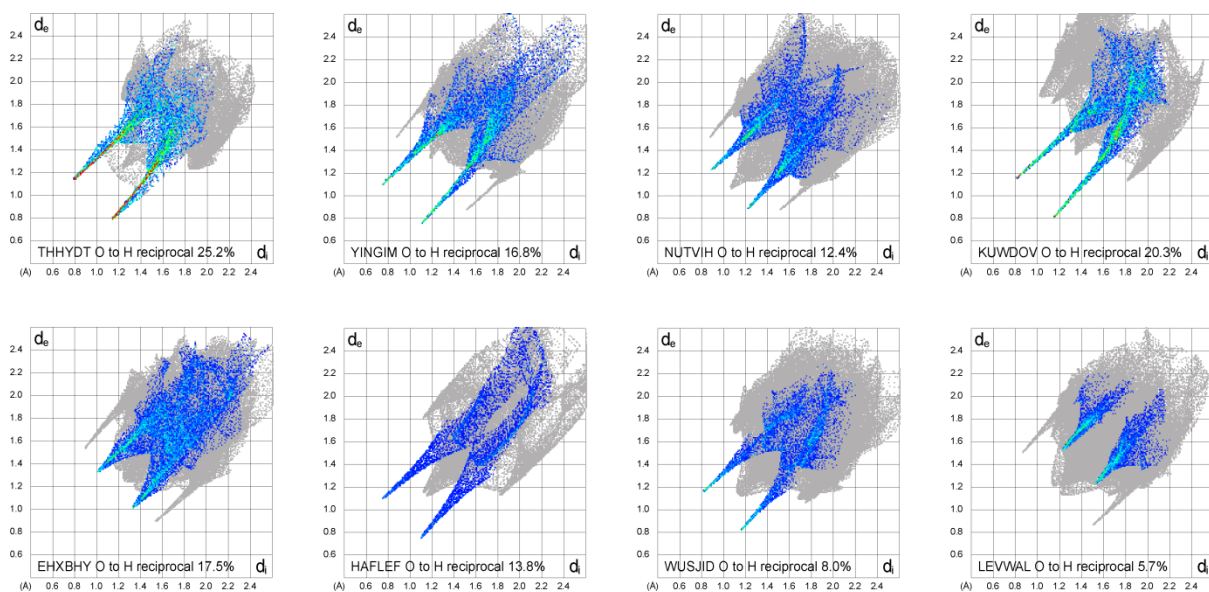

Figure S1 Fingerprint plots for compounds **1-7** resolved into O...H contacts. The full fingerprint appears beneath each decomposed plot in grey.

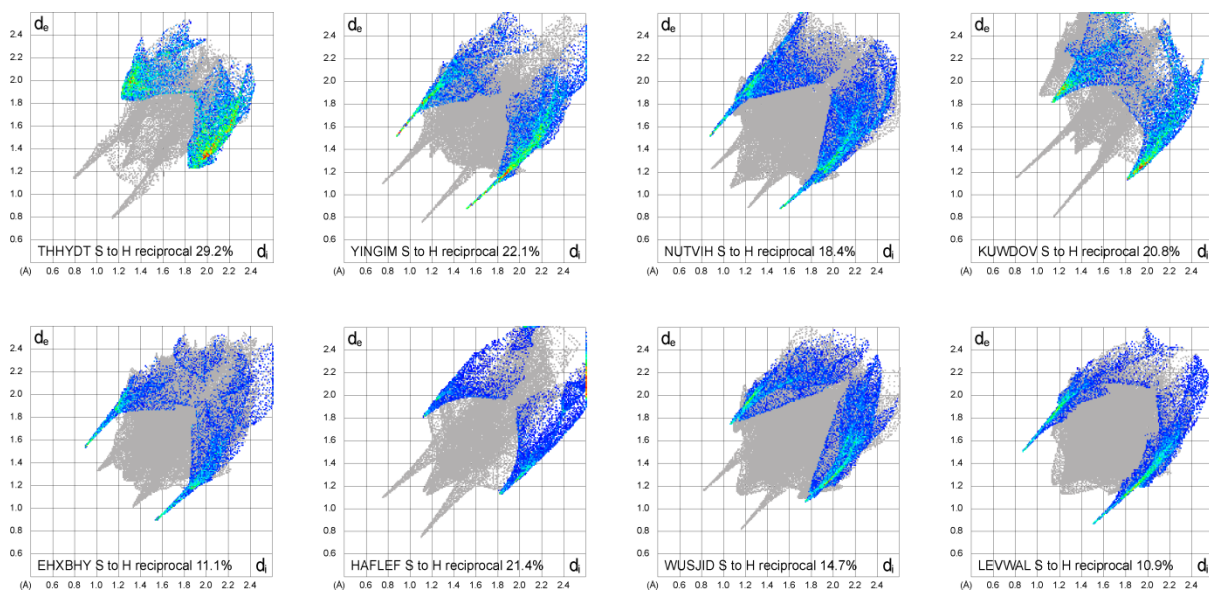

Figure S2 Fingerprint plots for compounds **1-7** resolved into S...H contacts. The full fingerprint appears beneath each decomposed plot in grey.

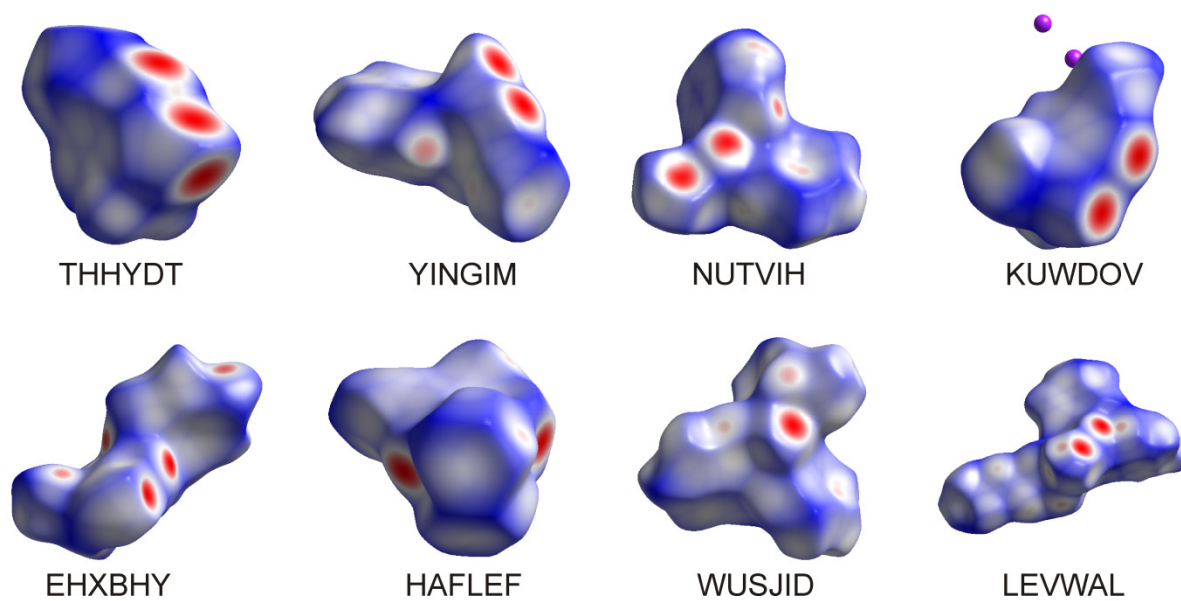

Figure S3 Hirshfeld surface of compounds **1-7** mapped with d_{norm} which highlights both donor and acceptor equally.
