

Supporting information

Figure S1. (a) Comparison of PXRD patterns between residual solid and compound **1**.
(b) Comparison of IR spectra between residual solid and compound **1**. (c)
Comparison of TG–DTA curves between residual solid and compound **1**.

Figure S2. Comparison of XRD patterns with the stimulated patterns based on the
crystal structures of **1–4**, respectively.

Figure S3. IR spectra of **1–4**.

Figure S4. TG–DTA curves of **1–4**.
