

# Control over multifarious entangled Co(II) metal-organic frameworks: role of steric bulk and molar ratio of organic ligands

Jian-Qiang Liu, Yao-Yu Wang, Tie Wu, Jian Wu

## Supplementary Information

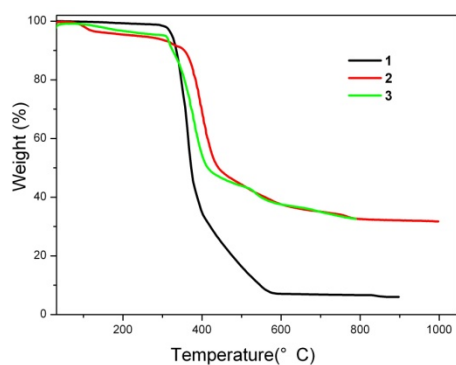

Figure S1. The diagram of TGA for complexes **1-3**

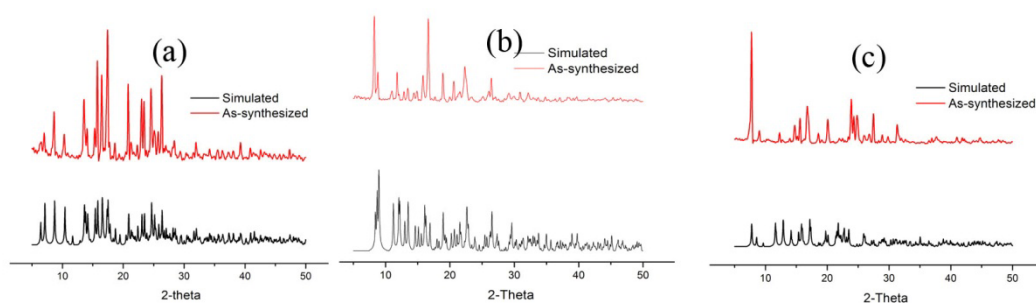

Figure S2. Comparison of XRPD patterns of the simulated pattern from the single-crystal structure determination for compounds **1-3** (order of a-c).
