

Electronic Supplementary Information (ESI)

5,10,15,20-tetra(4-pyridyl)porphyrinato zinc coordination polymeric particles with different shape and luminescent property

Wei Sun, Hailong Wang, Dongdong Qi, Liang Wang, Kang Wang, Jinlan Kan, Wenjun Li,* Yanli
Chen,* and Jianzhuang Jiang

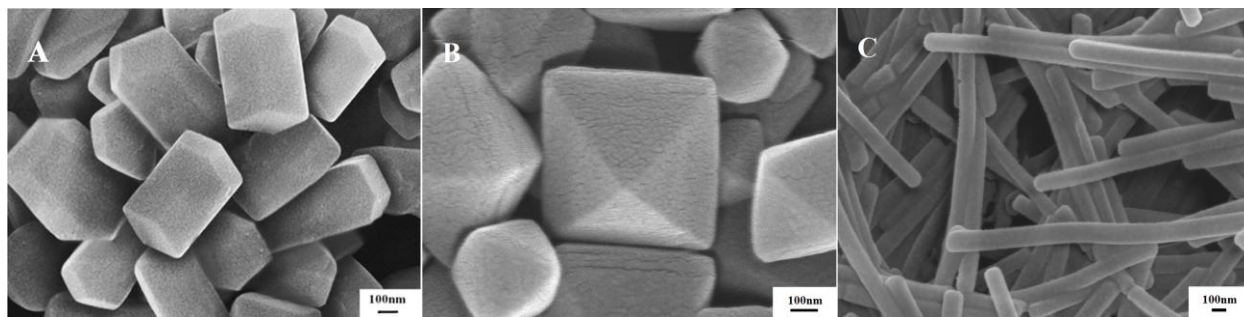

Fig. S1 Higher magnification SEM images of micro-prisms (A), micro-octahedrons (B) and micro-rods (C).

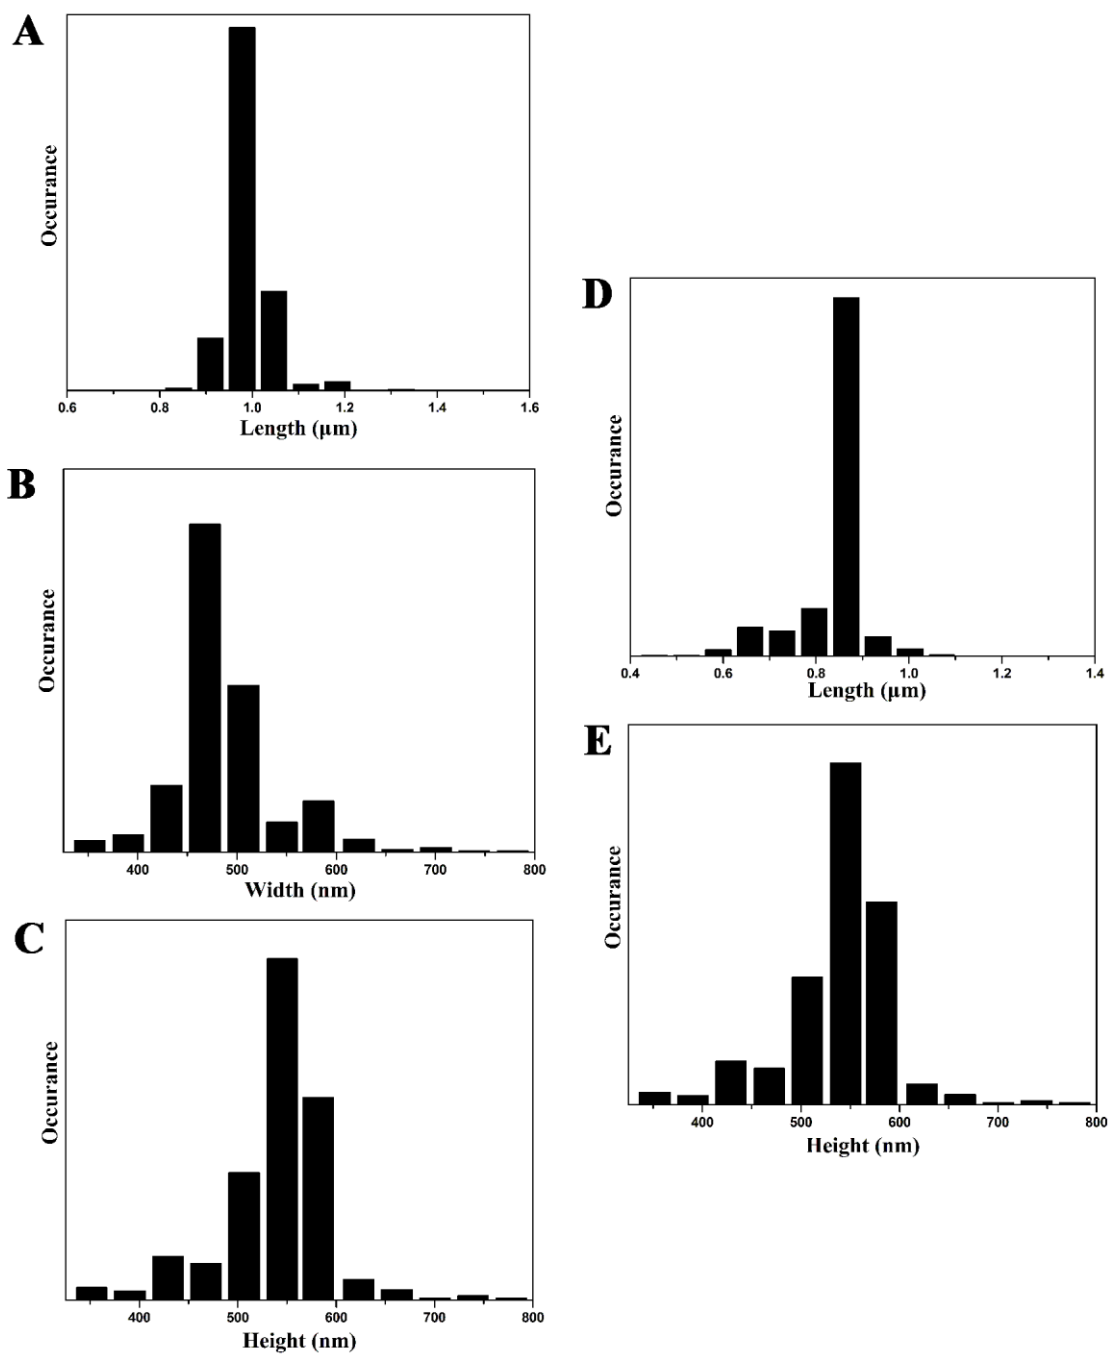

Fig. S2 The length distribution of micro-prisms (A) and micro-octahedrons (D), the width distribution of the micro-prisms (B), the height of micro-prisms (C) and micro-octahedrons (E).

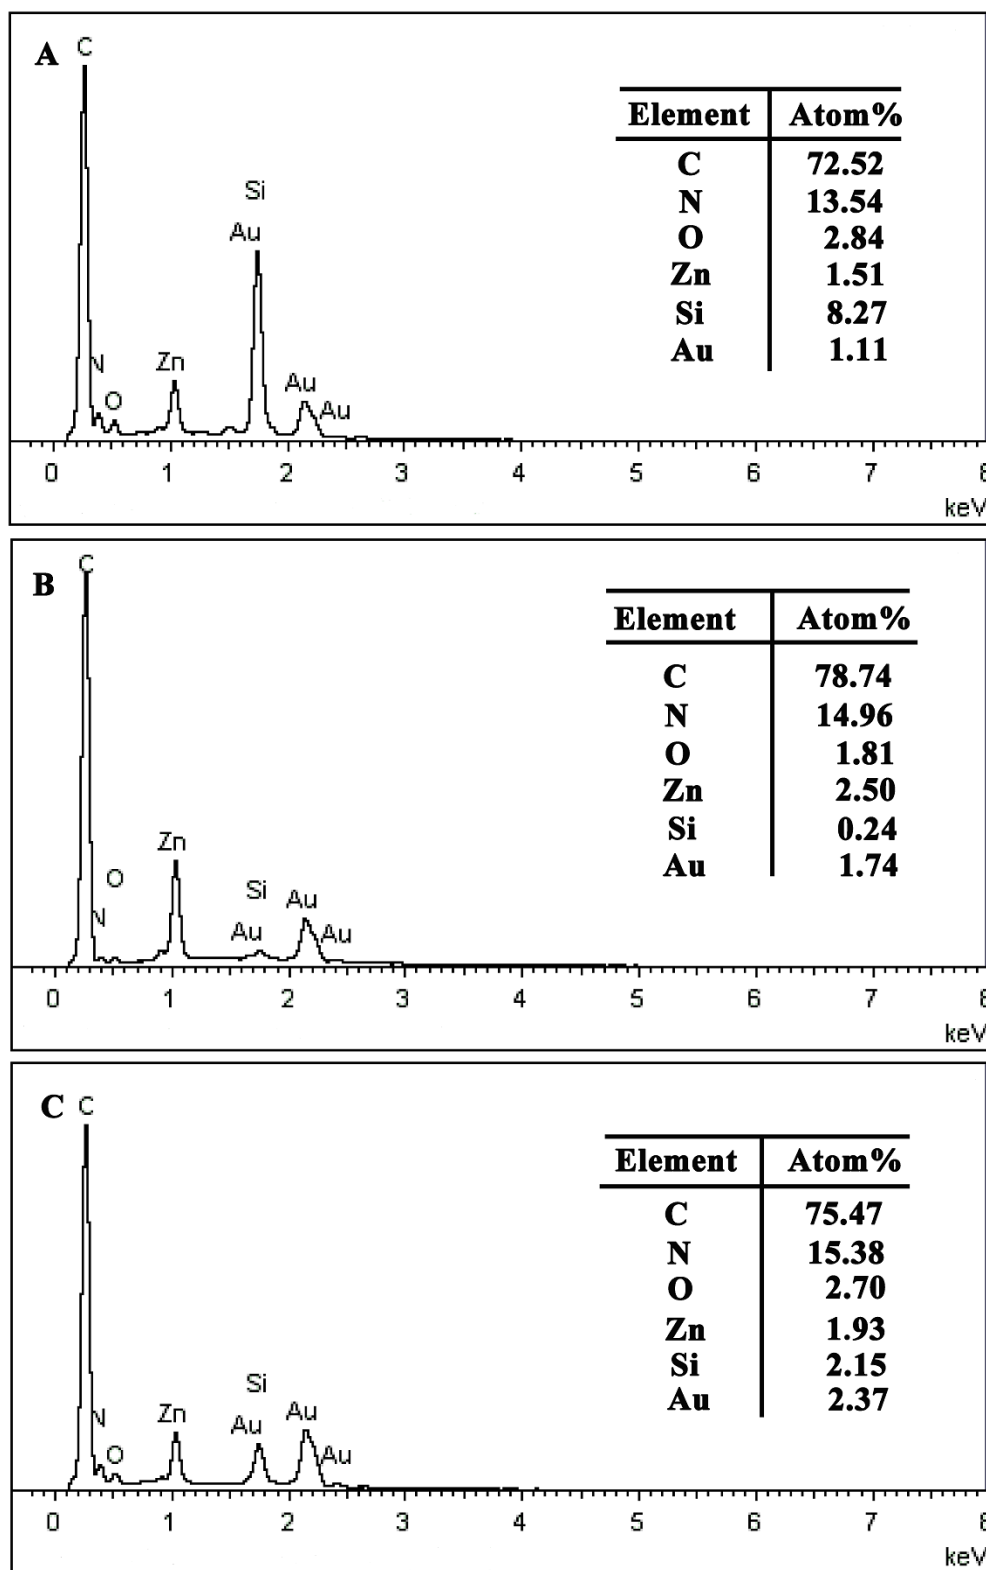

Fig. S3 The energy dispersed X-ray (EDX) images of micro-prisms (A), micro-octahedrons (B), and self-assembled ZnTPyP micro-rods (C).
