

Supplementary Figure S1. Peptides derived from α_{s1} -casein mapped onto the protein sequence. Amino acid position numbers in the intact protein are given on the x-axes. A, Casu Marzu; B, Mimolette; C, Stilton; D, Taleggio.

Supplementary Figure S2. Peptides derived from α_{s2} -casein mapped onto the protein sequence. Amino acid position numbers in the intact protein are given on the x-axes. A, Casu Marzu; B, Mimolette; C, Stilton; D, Taleggio.

Supplementary Figure S3. Peptides derived from β -casein mapped onto the protein sequence. Amino acid position numbers in the intact protein are given on the x-axes. A, Casu Marzu; B, Mimolette; C, Stilton; D, Taleggio.

Supplementary Figure S4. Peptides derived from κ -casein mapped onto the protein sequence. Amino acid position numbers in the intact protein are given on the x-axes. A, Casu Marzu; B, Mimolette; C, Stilton; D, Taleggio.
