**Table S1** The detailed criteria for DAI scoring

Score	Weight loss rate	Stool consistency	Hematochezia status
0	0%	Normal	Normal
1	0.1%-5%	Loose with regular shape	small amount of blood in some stool (+)
2	5%-10%	Loose with less regular shape, pasty	blood in stool regularly seen (++)
3	10%-20%	Diarrhea with loose shape	blood in all stool (+++)
4	>20%	Diarrhea without shape	blood in all stool (++++)
