

**Supplementary Table 1.** MS/MS parameters and estimated concentrations of glucoraphenin and ferulic acid in water-soluble extract from radish greens (WERG).

	Precursor <i>m/z</i>	Product <i>m/z</i>	Cone voltage (V)	Collision energy (V)	LOQ (ng/mL)	Estimated Conc. (µg/mg extract)
Glucoraphenin	434.0	96.8	26	22	2.02	3.36 ± 0.19
Ferulic acid	195.1	145.0	12	16	19.32	0.59 ± 0.04

**Supplementary Fig. 1.** Extracted ion chromatograms (EICs) of glucoraphenin and ferulic acid in the extract (top) and standard solution (bottom)
