

Supplemental Information

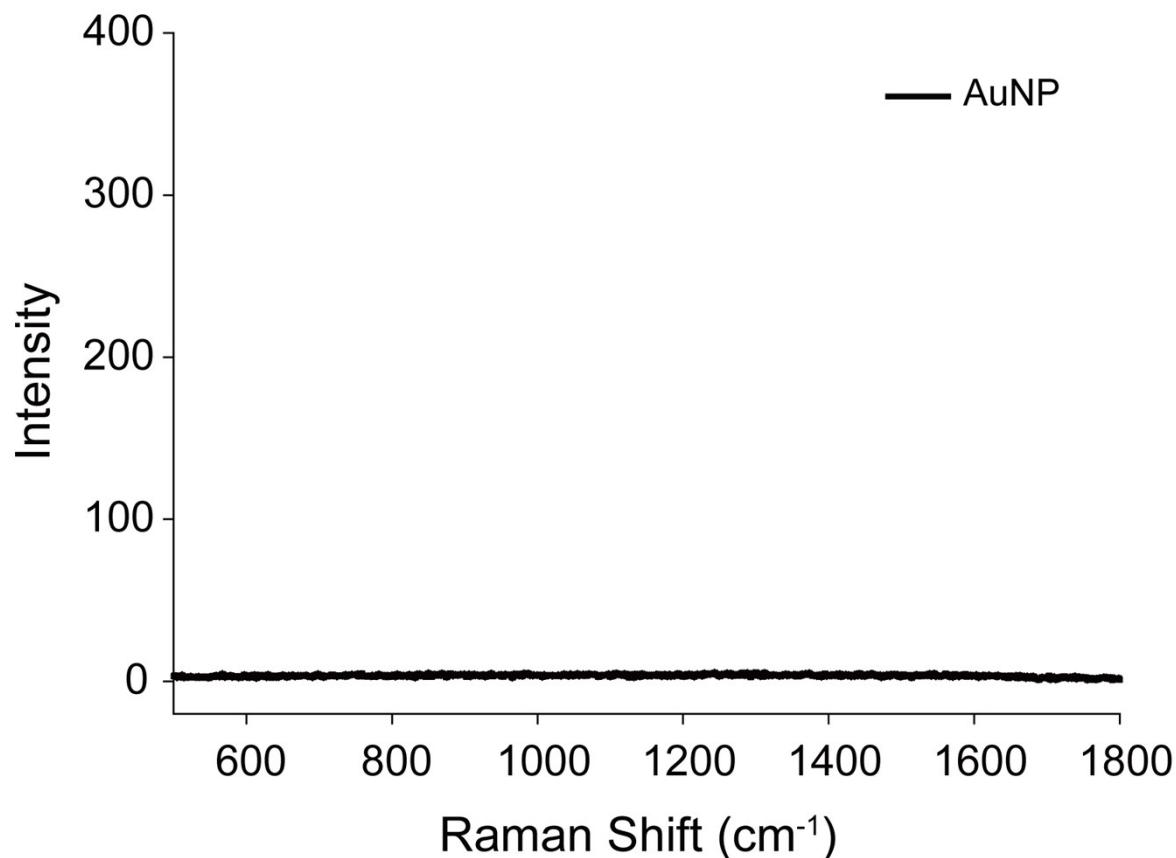

Figure S1. Raman spectrum of AuNP.

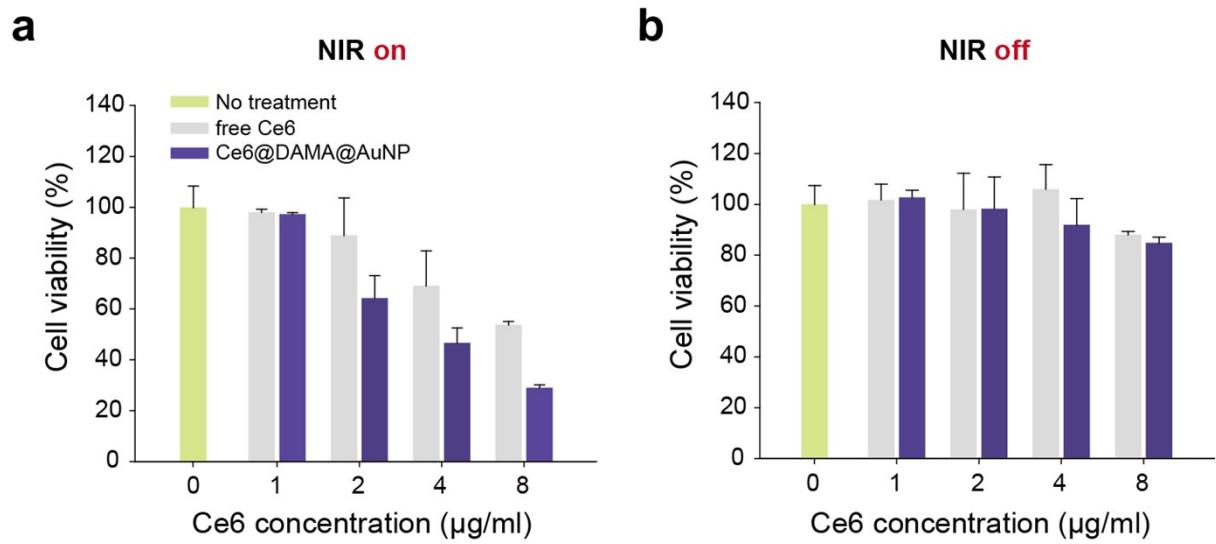

Figure S2. Cell viability (a) without and (b) with 660 nm laser irradiation (50mW/cm^2) for 2 min at different concentration of Ce6.

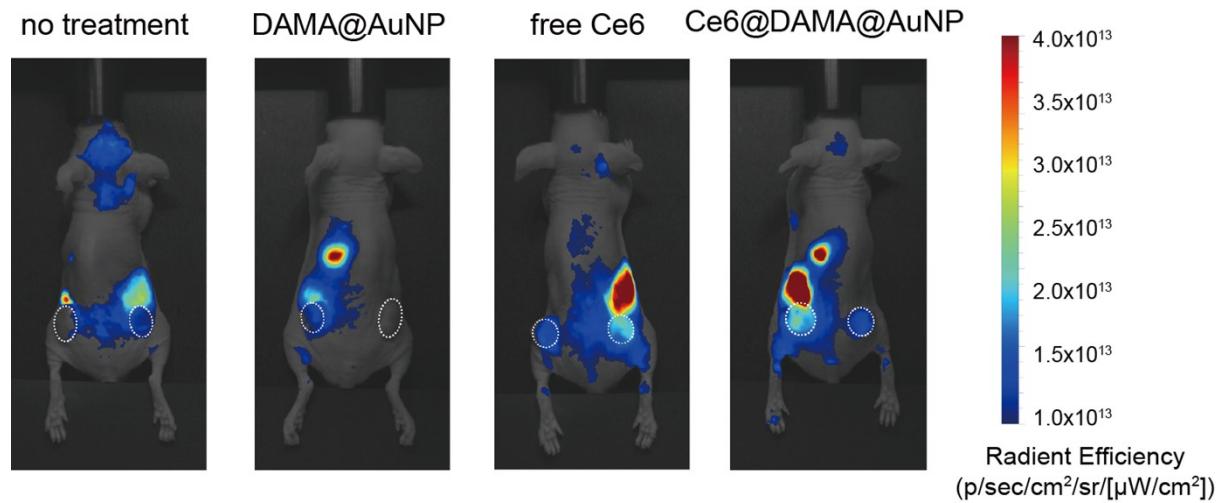

Figure S3. In vivo fluorescence images of A549 tumor-bearing mice treated with no treatment, DAMA@AuNPs, free Ce6, and Ce6@DAMA@AuNPs after 9 h post injection.
