Fig. S1. Absorption spectra of cerium(IV) phosphates: CePgel - amorphous cerium(IV) phosphate, CeP – $\text{Ce}(\text{PO}_4)(\text{HPO}_4)_{0.5}(\text{H}_2\text{O})_{0.5}$, NHCeP – $\text{NH}_4\text{Ce}_2(\text{PO}_4)_3$. The spectrum of nanocrystalline CeO_2 is also shown as a reference.
