Supplemental Material

Title: Ultrasound-Mediated Piezoelectric Nanoparticle Modulation of Intrinsic Cardiac Autonomic Nervous System for Rate Control in Atrial Fibrillation

Authors: Jiapeng Han†, Yuanzheng Zhang†, Xiaofei Wang†, Guocheng Zhang, Zhiyao Yu, Changyi Wang, Tianyou Xu, Zhen Zhou, Xiaomeng Yang, Xiaoxing Jin, Chenzhe Liu, Liping Zhou, Yueyi Wang, Baopeng Tang*, Shishang Guo*, Hong Jiang*, Lilei Yu*

Supplemental Material List:

Figure S1. The H&E staining of IRGP tissue and atria myocardium tissues. (Page 2)

Figure S2. ECGs of ventricular rate changes in atrial fibrillation. (Page 3)
Figure S1: The H&E staining of IRGP tissue and atria myocardium tissues. (A) Histopathological measurement of IRGP treated with BTNPs and PBS. (B) Histopathological measurement of atria in both groups. Magnification: X400.
Figure S2

Figure S2: ECGs of ventricular rate changes in atrial fibrillation.
