

1. Appendices

Appendix 1. Concentration-response data for selected flavonoids and SN-38 in Caco-2 cells

Appendix 1. MTT assay of Caco-2 cell viability following 48hr incubation with selected flavonoids (10-100 μM): **(a)** transilitin, **(b)** quercetin, **(c)** myricetin, **(d)** 2-D08 **(e)** SN-38 (0.1-50 μM). Data presented as mean \pm SD, $n = 4$ independent experiments. Two-way ANOVA with Dunnett's post-hoc test vs control, * $p < 0.05$, ** $p < 0.01$, *** $p < 0.001$, **** $p < 0.0001$ vs vehicle.
