

Figure S3 Permutation test plots of plasma samples in ESI⁺ mode (A) and ESI⁻ mode (C) for the control and model groups; permutation test plots of plasma samples in ESI⁺ mode (B) and ESI⁻ mode (D) for the model and QYSLD groups. Permutation test plots of lung tissue samples in ESI⁺ mode (E) and ESI⁻ mode (G) for the control and model groups; permutation test plots of lung tissue samples in ESI⁺ mode (F) and ESI⁻ mode (H) for the model and QYSLD groups.
