UV-Resonant magnetoplasmonic properties of chemically synthesized indium nanoparticles

Ririka Matsuda and Hiroshi Yao*

Division of Chemistry for Materials, Graduate School of Engineering, Mie University, 1577 Kurimamachiya-cho, Tsu, Mie 514-8507, Japan

Extinction and MCD spectra displayed as a function of energy in cm^{-1} unit.

Fig. S1 shows extinction and MCD spectra of In^0 nanoparticle samples expressed as a function of energy in cm^{-1} unit.

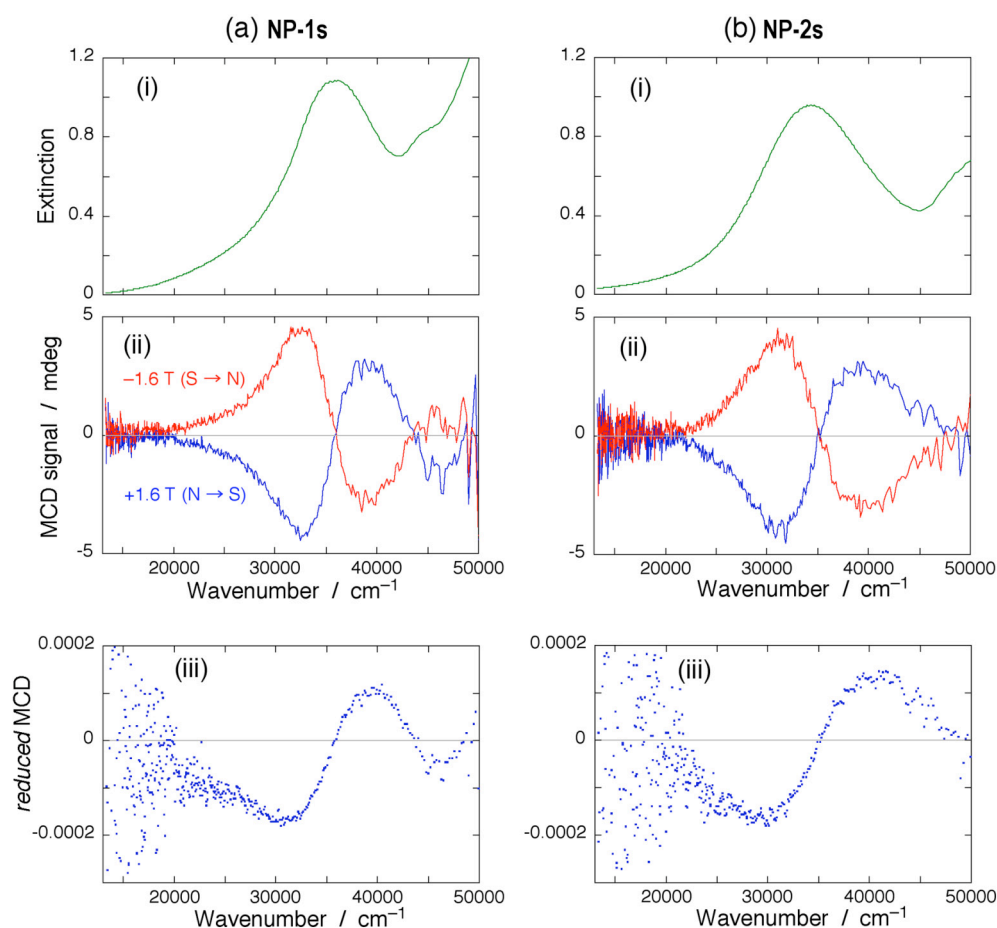

Fig. S1. (i) Extinction and (ii) MCD spectra of In^0 nanoparticle samples (a) **NP-1s** and (b) **NP-2s**. (iii) Reduced MCD spectra of (a) **NP-1s** and (b) **NP-2s**. The spectra are expressed as a function of energy in cm^{-1} .
