

Material for reviewers ms. SC-EDG-02-2024-001322

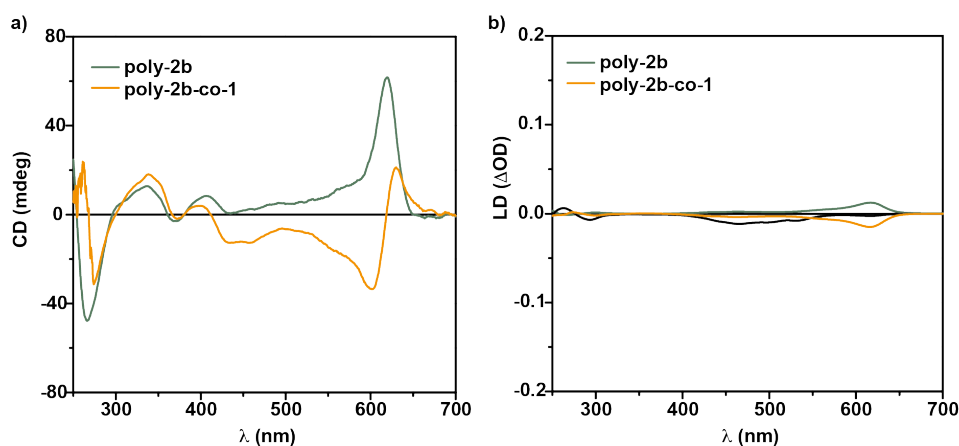

Figure SM1. a) CD and b) LD spectra of **poly-2b** and **poly-2b-co-1** (experimental conditions: MCH/DCE 7/3 as solvent, $c_T = 10 \mu\text{M}$).

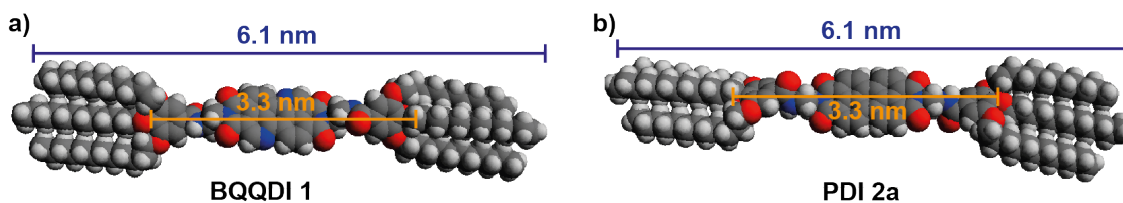

Figure SM2. Optimized geometry for the monomeric units of BQQDI 1 (a) and PDI 2 (b) showing the distances of the aromatic core, including the benzoate groups, and the complete molecule.
