

All videos are in real time.

For all videos: $C_m = 173$ mM

Video A: Formation of a cluster.

$$R = 70 \text{ }\mu\text{m}$$

$$r_d = 9.4 \text{ }\mu\text{m}$$

Video B: Formation of a cluster.

$$R = 93 \text{ }\mu\text{m}$$

$$r_d = 10.2 \text{ }\mu\text{m}$$

Video C: Formation of a satellite cluster. (Same cluster shown in Fig. 3 on manuscript)

$$R = 93 \text{ }\mu\text{m}$$

$$r_d = 4.9 \text{ }\mu\text{m}$$
