

Figure S2. The cyclic (CV) (—) differential pulse (DPV) (-----) voltammograms of 0.001 M complex of [Cu(L1)(H₂O)Cl]Cl **1a** on a Pt sphere electrode in methanol (0.01 M THAP) at 25 °C at 0.05 and 0.001 V s⁻¹ scan rates respectively; pulse height for DPV, 0.05 V.
