

Figure S5. The cyclic (CV) (—) differential pulse (DPV) (-----) voltammograms of 0.001 M complex of $[\text{Cu}(\text{L4})](\text{ClO}_4)_2 \cdot 2\text{CH}_3\text{CN}$ 4 on a Pt sphere electrode in CH_3CN (0.01 M TBAP) at 25 °C at 0.05 and 0.001 V s^{-1} scan rates respectively; pulse height for DPV, 0.05 V.
