

Supplementary Information

Title: Three-Dimensional Mesomeric Networks Assembled from Helix-Linked Sheets: Syntheses, Structures, and Magnetisms

Authors: Chao Qin, Xin-Long Wang, Yang-Guang Li, En-Bo Wang,* Zhong-Min Su,* Lin Xu, and Rodolphe Clérac*

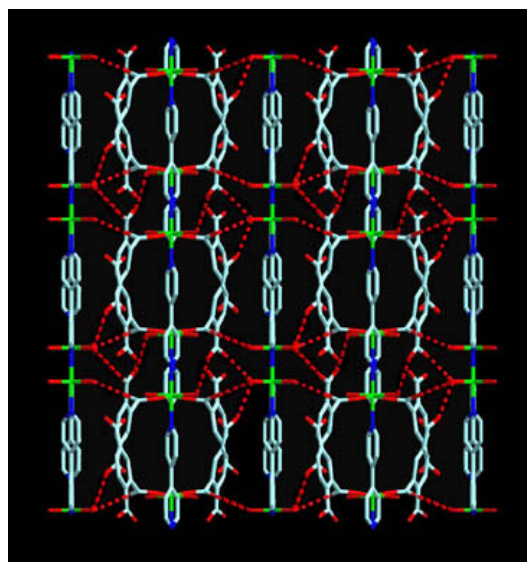

Fig. S1 The 3D supramolecular architecture along the *c* axis formed by the hydrogen-bonded linkages of anionic and cationic chains.

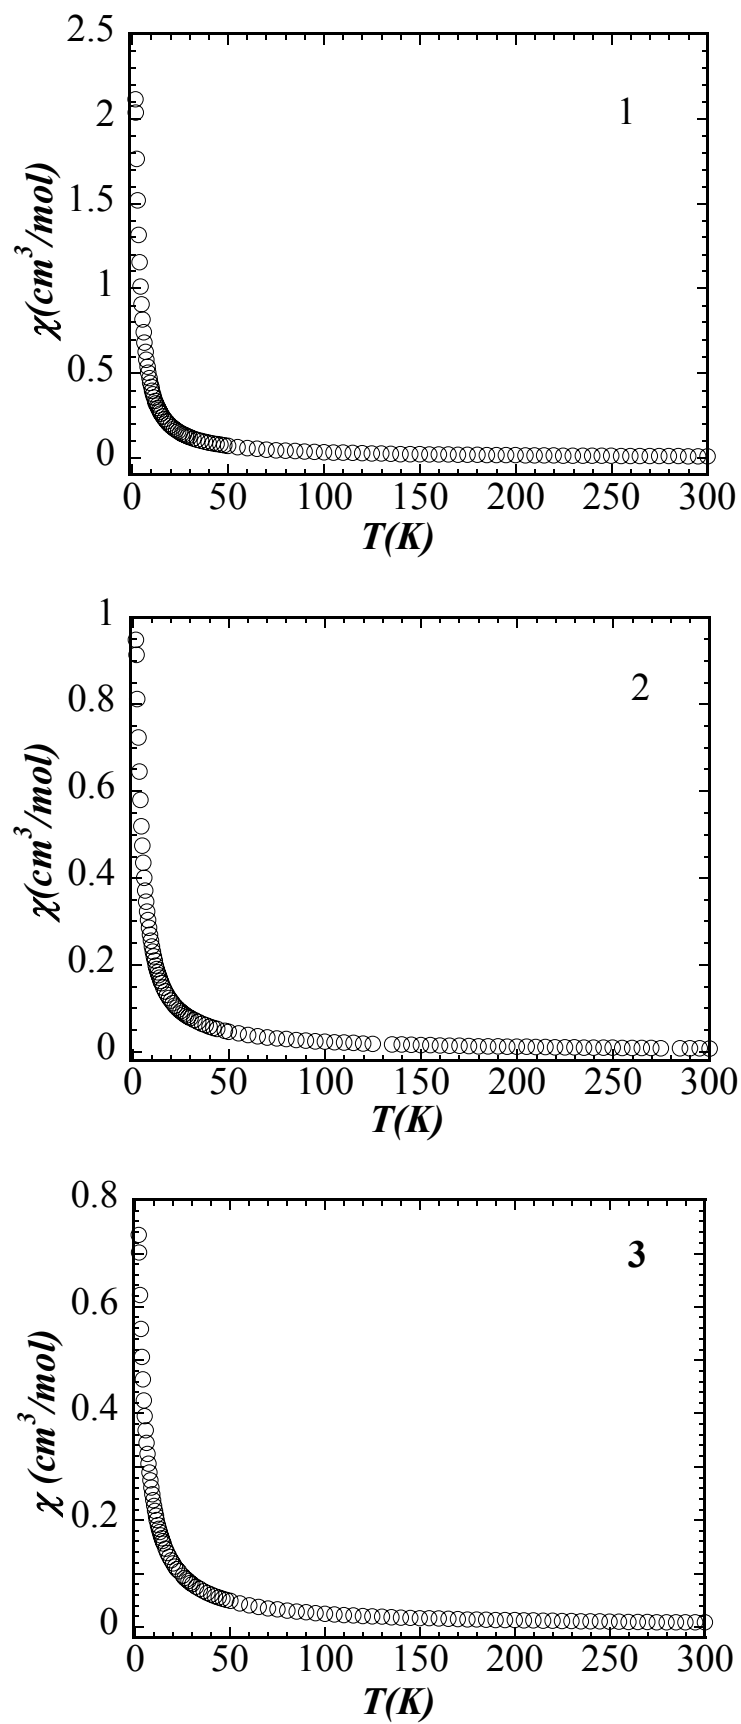

Fig. S2 Temperature dependence of susceptibility for **1**, **2** and **3**. The susceptibility given is per three

Ni sites for **1** and two Ni sites for **2** and **3**.
