

Supplementary Information

Cucurbit[10]uril binding of dinuclear platinum(II) and ruthenium(II) complexes: association/dissociation rates from seconds to hours

Michelle J. Pisani,^a Yunjie Zhao,^a Lynne Wallace,^a Clifford E. Woodward,^a

F. Richard Keene,^{b*} Anthony I. Day^{a*} and J. Grant Collins^{a*}

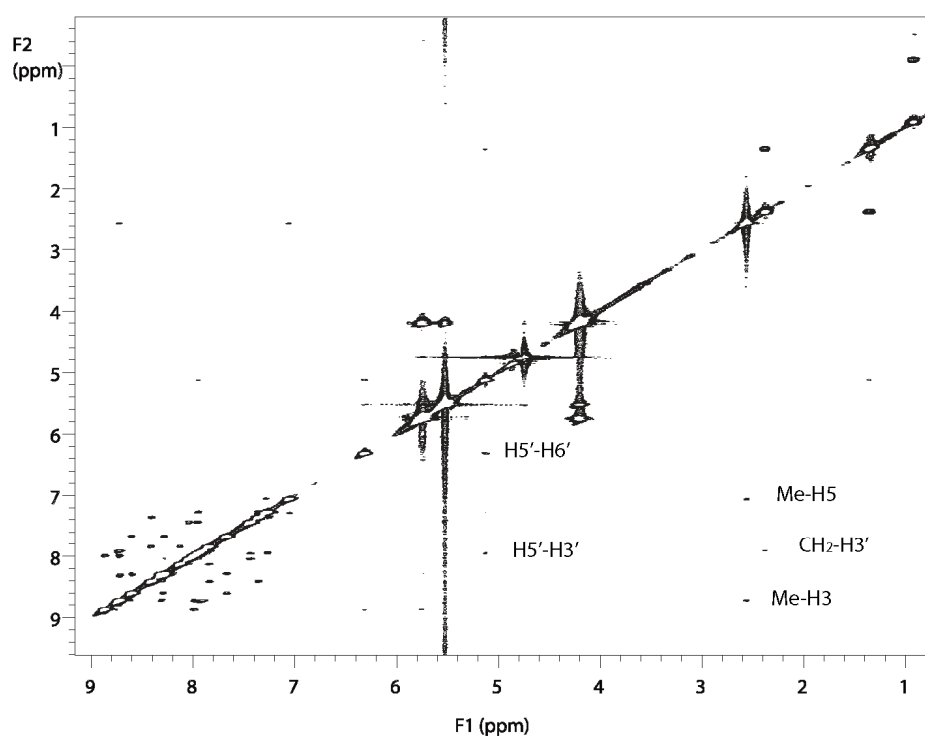

Supplementary Information Figure 1 ¹H NMR DQFCOSY spectrum of Rubb₅ (1 mM). Important connectivities have been labelled.
