

Chromium(III) stars and butterflies: synthesis, structural and magnetic studies of tetra-metallic clusters: Supplementary Information

L. J. Batchelor, M. Sander, F. Tuna, M. Helliwell, F. Moro, J. van Slageren, E. Burzuri, O. Montero, M. Evangelisti, F. Luis and E. J. L. McInnes

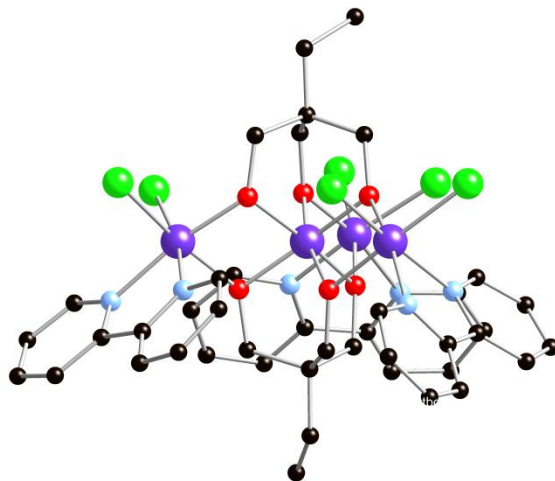

Figure S1. Structure of complex 2 viewed in the {Cr₄} plane. Scheme as in Fig. 1.

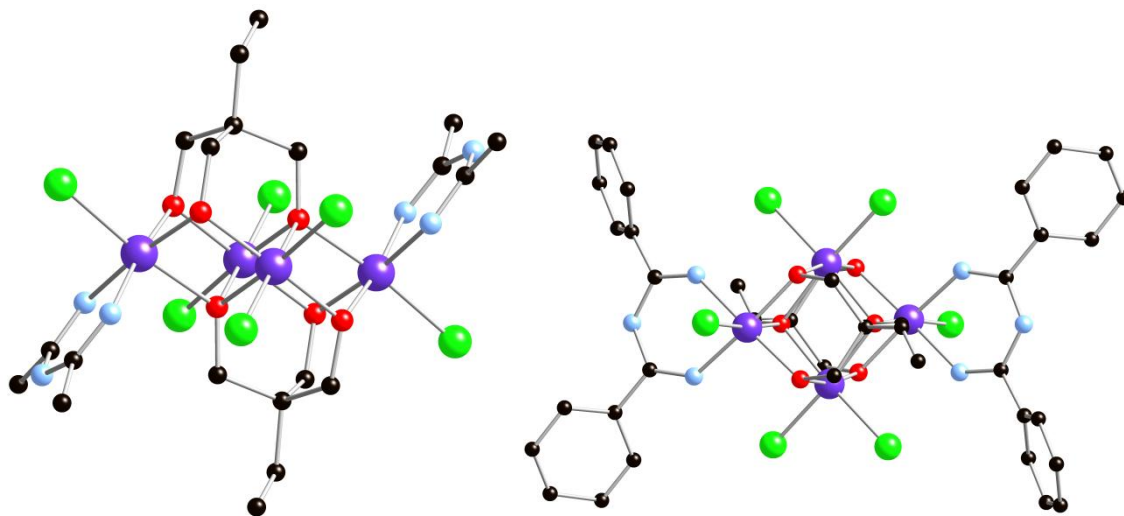

Figure S2. Views of the structures of complexes 5 (left) and 7 (right). Scheme as in Fig. 1.

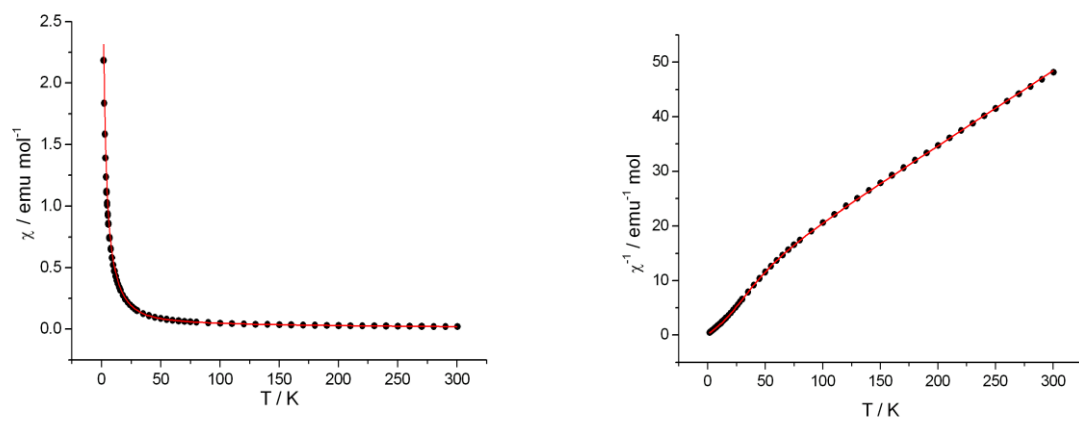

Figure S3. $\chi(T)$ (left) and $\chi^{-1}(T)$ (right) for **2**: experimental (data points) and calculated (red lines).

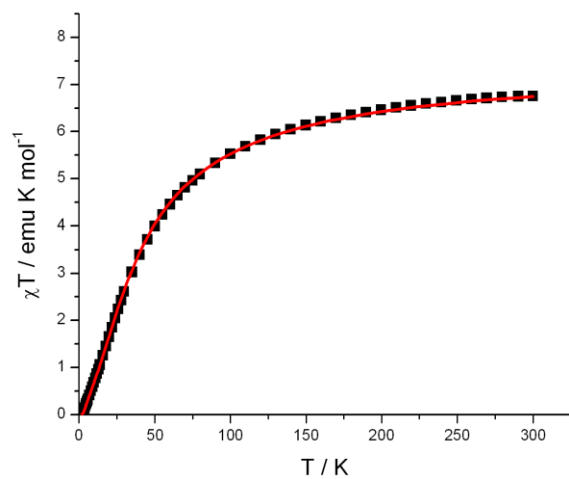

Figure S4. $\chi T(T)$ for **7** in an applied field of 1.0 T: experimental (data points) and calculated (red line).
