Eggs	g/day	gamma*binomial	23.3 ± 13.9	0.027
Bakery products	g/day	gamma*binomial	39.5 ± 38.2	0.000
Oils and fats	g/day	gamma*binomial	36.1 ± 20.6	0.002

^aMean and standard deviation were used for log-normal distributions and gamma*binomial; low and high for uniform distributions, and mean, low and high for triangular distributions.

^bDistributions were adjusted from the Frequency and Quantity Questionnaire data of ENCAT.²⁰ The binomial factors were included to take into account the non-consumer people (non-consumer frequency).
